Meal Plan Changes

The University recently reviewed both its on-campus living and dining requirements and has decided to align its dining program with that of other major universities. For the 2010-2011 academic year the following changes will be in place.

All undergraduate students living in the non-apartment campus residence halls are required to purchase a meal plan. Freshman and sophomore residential students must purchase one of the Residential meal plans (Value or Unlimited). All other undergraduate residential students have the additional choice of the YCMP options (Gold and Platinum).

The only exception to this policy is that non-freshman undergraduates living in the 12 month graduate facility in Cashin dorm are able to purchase a YCMP or Residential meal plan, but it is not mandatory. However, freshman living in Cashin are required to purchase a Residential meal plan.

Students assigned to North Apartments can choose any meal plan including the North Apartment meal plan, but it is not mandatory. Graduate students living in the residence halls are also exempt from the meal plan requirement but are welcome to participate in any of our meal plan options.
