MINUTES The minutes of February 11, 2004 were approved as revised.

CAMPUS SERVICES Sandy discussed the original PTAB'S Charter that can be viewed on the A&F home page. She asked PTAB'S members to read and note any recommendations that would update the Charter.

TRANSIT The PVTA shortfall and the repercussions were discussed. Al Byam gave an update on discussions for the traffic plan in our surrounding communities.

Al gave an update on advertising on state vehicles. At present, one vender is advertising on an Office 2 Office campus delivery truck.

PARKING The results of the Student Transportation Survey taken in Fall 2003, were distributed by Rob Hendry. Rob informed PTAB of the survey's benefits to transit in that it details off-campus students' commuting patterns in 2003. These figures are then reported to the Mass. Dept. of Environmental Protection to satisfy the state Rideshare mandate. This survey helps evaluate the effectiveness of our transportation demand management (TDM) program.

Handouts: Student Transportation Survey

The Retired Employee Parking Options (REPO) fee schedule was discussed and revisions made. This program will be reviewed for the final time at April's meeting.
