Make an Appointment with a Career Services Advisor

Professional Career Advisors are available by appointment to work with students on a range of career related issues. Students can schedule an appointment either by scheduling an appointment online or, if you have trouble doing so, you can also contact Career Services directly at careerservices@umass.edu or 413-545-2224.

Schedule an Appointment with a Career Advisor in CareerConnect

1. Follow the instructions to use the appointment filters to narrow down available advisor appointment times and click to view options.

2. Select from the list of available times when they appear by clicking on the Advisor's name.

3. Add any notes and click Submit Request to make the appointment.

Click the See a Career Advisor link in the MY SHORTCUTS area of the CareerConnect home page.

You can also click Calendar & Appointments on the menu.
Tips If You Have Trouble Scheduling An Appointment:

CareerConnect uses your official Spire major to select career advisors that have some specialization in your area. If you are Undecided and in an Exploratory Track, our career advisors are also ready to work with you.

Not all advisors provide both 30 and 60 minute appointments. Try changing this filter, then “Check Availability” again.

Leaving the “Primary Reason” blank may expand the range of suggested advisors and available times.

If you seek a specific advisor and do not see them in CareerConnect, contact Career Services directly at 413-545-2224, or careerservices@umass.edu, and we can book an appointment with the available advisor of your choice.
