

## PRS Best Practice Fellows

***Community of Practice: The Use of Personal Response System Technology in Large Lectures*** is a joint project of the Center for Teaching, Provost's Office, and Center for Educational Software Development, and is partially funded by a Professional Development Grant from the UMass President's Office. The goals of this program are:

- To work collaboratively with faculty members to create consistent principles and instructional strategies for teaching with clickers
- To “seed” development skills in a wide range of disciplines
- To share the best practices with instructors from all five UMass campuses and beyond.
