Group Meeting:

Date: August 17 from 1:30-3 PM

Place: Arnold 412

Attendance:

Ed Stanek, Wenjun Li; Ruitao Zhang; Bo Xu

Contents:

Discuss the paper by Jiang and Lahiri in JASA 2006 (vol 101 pp301-311).

1. What is the link between these two approaches?
2. Can we link between indicator and permutation
3. Domain means: condition on sample size? Not condition on sample size, but know the domain total.
4. Missing data: Do we need a distribution for missing data.
5. refer to Sara and Carol, best predictor of domain means.
