NOTE: "All Appointments" / "Head Count" does not equal the straight line totals of the different appointment types. Instead it counts each student who receives assistantship support only once regardless of how many appointments he/she may have. For example, if Jane D. receives a Teaching Assistantship, Two Research Assistantships and a Fellowship, then she would be counted once under "Teaching Assistants", once under "Research Assistants", once under "Fellows..." and only once under "All Appointments".
