

The Minor in Education is a way for students interested in education to explore various theoretical aspects of education and to gain experience working with students in a variety of settings. While completion of the minor does not lead to a license or certificate, students who pursue the minor will gain a strong knowledge base in the area of education and be well-prepared to enter a licensure program, graduate program, or career in the field of education. UMass undergraduates from any department are welcome to complete the minor, and **students interested in early childhood or elementary education should seek additional advising regarding prerequisites needed to prepare for pursuing licensure in these areas.**

To complete the Minor in Education, students must take **at least 18 credits of coursework** from the courses listed below. Students must take **at least three credits in each of the four sections**, and **six of the 18 total credits must be at the 300+ level**. Students interested in completing an independent study or enrolling in education credits while studying abroad must seek prior approval through the Educator Information Office before these credits can count toward the Minor in Education.

1. Foundations

- Educ 192A Education at the Movies
- Educ 229 International Education (4 credits)
- Educ 291C Diversity and Change in American Education
- Educ 300 Current Issues in Higher Education
- Psych/Educ 305 Educational Psychology
