Program Description
The Collaborative Teacher Education Pathway (CTEP) offers a Master of Education degree leading to Initial Massachusetts Licensure in Elementary Education. The pathway is 39 credits, 12 of which are field-based in schools. Designed for dynamic students interested in an intensive, full-time program, CTEP is rooted in the constructivist theory of knowledge and learning, multicultural and social justice education, and active problem solving and reflection. Students complete an urban as well as a suburban practicum and spend three full-days in the classroom in the fall and five full-days in the spring. Students are jointly supervised by supervising practitioners and program supervisors and learn together in cohorts of twenty-five to thirty students.

Who May Apply
CTEP is designed to meet the needs of three groups of individuals who desire an elementary teaching license:

1) Graduating seniors at the University of Massachusetts;
2) Seniors from other institutions; and
3) Second-career professionals.

Applicants must possess a B.A. or B.S. degree with a liberal arts major and a G.P.A. of 3.0 or higher. Many applicants have a minor in education; however, this is not a requirement for admissions.

Prerequisites for Acceptance
- Passing scores on the Communication and Literacy Skills portion of the Massachusetts Tests for Educator Licensure (MTEL).*
- Evidence of, or plans for, meeting the prerequisite knowledge base in mathematics. This requirement can be met successfully by completing Math 113, Math 114 and Educ 463 (with a grade of B or higher), or higher-level mathematics courses. Math 113, Math 114 and Educ 463 are offered each semester. Math 113 and Math 114 are periodically offered during the summer at UMass. Candidates fulfilling these prerequisites at another institution must provide course syllabi to CTEP for approval.
- Evidence of, or plans for, meeting the prerequisite knowledge base in reading/writing methods. This requirement can be met by successfully completing Educ 461 (with a grade of B or higher). Educ 461 is offered each semester at UMass and online during the summer. Candidates fulfilling this prerequisite at another institution must provide a syllabus to CTEP for approval.

* You must pass the Communication and Literacy Skills portion of the Massachusetts Tests for Educator Licensure (MTEL) as a pre-requisite for acceptance. NOTE: Although passing scores on the remaining two MTEls (Foundations of Reading and General Curriculum) are not required for application to CTEP, these two MTEls must be passed by June 1. (MTEL test dates are limited. To meet the June 1 deadline, students are encouraged to begin taking these tests during their junior year.)

Admissions Process and Requirements
Complete the University of Massachusetts Amherst Graduate School Application. IMPORTANT: Under the Objectives tab of your application, choose “Masters Degree” from the Objective dropdown menu. Choose “Education [Collaborative Teacher Ed: Elementary] (M.Ed.)” in the Degree dropdown menu. CTEP does not require GRE scores (Part IV).

The following must be included with the application:
- Personal Statement that includes your future goals as well as your beliefs about teaching and learning (Part VII).
- Hard copy of your passing scores on the Communication and Literacy Skills portion of the MTEL.
- Two recommendations (one academic reference and one highlighting your work with children).
- Evidence of, or plans for, meeting the reading/writing methods prerequisite.
- Evidence of, or plans for, meeting the mathematics knowledge prerequisite.
- Résumé.

CTEP seeks candidates who demonstrate initiative, highly effective interpersonal and communication skills, a passion for learning, and respect for diversity of children and families in public schools. Experience with children in educational environments is highly valued. In some cases, applicants will be invited for an interview. Students must be able to balance intensive course work with significant time in the field.
Program of Study
CTEP blends intensive academic study with carefully supervised field experiences. The following is the course sequence for the 2014-2015 CTEP program of study. An orientation program is held in August. Students begin their field experience when public schools open in late August/early September.

Summer Session
EDUC 592L: Social Studies Methods (3)  
EDUC 615AK: Inclusive Classroom: Application (3)

Fall Semester
HUM DEY 570: Child Development (3)  
EDUC 615N: Children and their Literacies (3)  
EDUC 691R: Prom. Practices in School Mathematics (3)  
EDUC 662: Integrated Methods Seminar (3)  
EDUC 598E: Elementary Pre-Practicum, Grades 1-6 (3 days/week) (6)

Spring Semester
EDUC 561: Science Education in Elementary Schools (3)  
EDUC 503: Sheltered English Immersion (3)  
EDUC 695R: Advanced Integrated Methods Seminar (3)  
EDUC 500Y: Student Teaching (6)

CTEP students follow the public school calendar, rather than the university calendar, for all vacations.

Academic Advising
Prior to admission, individuals who plan to apply to CTEP receive advising from the Educator Information Office, W144 Furcolo Hall (eio@educ.umass.edu or 413-545-2002). Once accepted, a CTEP faculty member will serve as your academic advisor during the year.

Career Opportunities and Job Placement
Graduates of CTEP who pass all portions of the MTEL are eligible for initial licensure in elementary education in Massachusetts. Graduates have a very high rate of success in attaining teaching positions in public schools in Massachusetts as well as other states. Graduates who seek teaching positions in states other than Massachusetts are usually required to take licensure tests required by the particular state, and in some cases, additional coursework.

LICENSURE INFORMATION AND STUDENT SUPPORT SERVICES

Massachusetts Tests for Educator Licensure (MTEL): The MTEL is required for licensure by the Department of Elementary and Secondary Education of the Commonwealth of Massachusetts. The test has two parts: the Communication and Literacy Skills (C&LS) test and the Subject area test(s). The University’s policy is that:
- Undergraduates must achieve a passing score on the C&LS test as a prerequisite for admission.
- Post-baccalaureate and graduate students must achieve a passing score on the C&LS test in their first semester of study.
- All students must pass the Subject test(s) (if one has been developed for that licensure field) before enrolling in the practicum.

Licensure Application Process: The Educator Licensure Office (ELO) in the School of Education coordinates the licensure application process for all University Educator Preparation program students who have completed all licensing requirements. The ELO provides information to guide students in using the Electronic Licensure and Recruitment system (ELAR), a system in which students apply for educator licenses online. The ELAR system requires a student to apply for his/her license online (including the payment of license fees) and send an official copy of his/her transcript to the ELO in Room W144 Furcolo Hall (being sure that the transcript includes the “Institutional Recommendation for Educator Licensure”). After individuals have applied online, the ELO endorses/recommends candidates for licensure via ELAR. The University Licensure Officer also assists students in completing applications for licensure in other states, as necessary.

Career and Job Search Assistance: The School of Education, in collaboration with Career Services, sponsors a Job Fair for prospective educators. The Job Fair draws school districts from Massachusetts, Connecticut, Vermont and New Hampshire. In addition, Career Services provides information and registration for the Massachusetts Educational Recruiting Consortium (MERC), a recruitment fair attended by school districts from across the nation.

The University of Massachusetts Amherst prohibits discrimination on the basis of race, color, religion, creed, gender, sexual preference, age, marital status, national origin, mental or physical handicap, political belief or affiliation, membership or non-membership in any organization, or veteran status, in any aspect of the admission or treatment of students or in employment.
