CHERYL SHEILS  Proposed Dissertation Title: “Latinos in the Pipeline to Baccalaureate-Prepared Nursing: Challenges and Supports in Persistence to Degree and Professional Licensure.” Statement of the Problem: Shifting population demographics in the United States has created the need for a more diverse professional nursing workforce. Retention rates for Latino nursing students are lower than those for Whites, limiting their numbers in nursing and impacting the supply of nurses overall. It is essential that educators and policy makers learn more about Latinos' experiences in baccalaureate nursing programs as part of the effort to address persistent inequalities in higher education as well as in the health care workforce. Chairperson: Dr. Joseph B. Berger.

SCHOLARSHIP

The Robert Noyce Teacher Scholarship Program seeks to encourage talented science, technology, engineering, and mathematics majors and professionals to become K-12 mathematics and science teachers. The program provides funds to institutions of higher education to support scholarships, stipends, and academic programs for undergraduate STEM majors and post-baccalaureate students holding STEM degrees who commit to teaching in high-need K-12 school districts. A new component of the program supports STEM professionals who enroll as NSF Teaching Fellows in master’s degree programs leading to teacher certification by providing academic courses, professional development, and salary supplements while they are fulfilling a four-year teaching commitment in a high need school district. This new component also supports the development of NSF Master Teaching Fellows by providing professional development and salary supplements for exemplary math and science teachers to become Master Teachers in high need school districts.

An institution, on its own or as a member of a consortium, may submit no more than one Noyce proposal per track. There are two Noyce tracks in this solicitation: the Noyce Teacher Scholarship Track and the NSF Teaching Fellows/Master Teaching Fellows Track.

ANNOUNCEMENT OF COMPREHENSIVE EXAMINATION
ROLAND JOYAL  December 17, 2008, 9:00 a.m., Room 157, Hills South. Chairperson: Dr. Matthew Militello.

FORMATION OF DISSERTATION COMMITTEE
MAYRA ALMODOVAR  Proposed Dissertation
Title: "An examination of how early childhood teachers integrate the arts to their daily classroom routine."

Statement of the Problem: The arts have been an integral part of Early Childhood education. Many research studies validate the contributions the arts make to improve our students' learning outcomes. Unfortunately society continues to value more traditional subjects such as math, reading, and writing. This study aims to explore how preschool teachers integrate the arts (music, drama and the visual arts) in their curriculum while providing a better understanding of the great realms of possibilities that the arts have over our students' learning experiences.

Chairperson: Dr. Ernest Washington.
