I have a personal email address. Why do I need to have a school email address?

Your UMass email is used as the only email address that the Graduate School uses to notify you of important information concerning your graduate program, your status, registration issues, etc. All students should check their UMASS Email daily.

Where can I find contact information for the department I am enrolled in?

tem must be considered. In particular, attention must be paid to the potential impact of the assessments on a diverse pool of teacher candidates. In addition, the unit assessments and evaluations must consider how to provide and use information constructively from various sources—the unit, field experiences and clinical sites, general education and subject content preparation courses, faculty, candidates, graduates, and employers. Technology will play an increasingly important role in data gathering and analysis, as well as more broadly in unit planning and evaluation.

Assessment systems include plans and timelines for data collection and analysis related to candidates and unit operations. Assessment systems usually have features such as these:

- Unit faculty collaborate with members of the professional community to design and implement the system.
- Professional, state, and institutional standards are reference points for candidate assessments.
- The unit embeds assessments in the preparation programs, conducts them on a continuing basis for both formative and summative purposes, and provides candidates with ongoing feedback.
- The unit uses multiple indicators (e.g., 3.0 GPA, demonstrated mastery of basic skills, general education knowledge, content mastery, and life and work experiences) to identify candidates with potential to become successful teachers or assume other school personnel roles at the point of candidate entry (as a freshman, junior, or post-baccalaureate student).
- The unit has multiple decision points, e.g., at entry, prior to clinical practice, and prior to program completion.
- The unit administers multiple assessments in a variety of forms and aligns them with candidate standards. These may come from end-of-course evaluations, written essays, or topical papers, as well as from tasks used for instructional purposes (such as projects, journals, observations by faculty, comments by cooperating teachers, or videotapes) and from activities associated with teaching (such as lesson planning, identifying student readiness for instruction, creating appropriate assessments, reflecting on results of instruction with students, or communicating with parents, families, and school communities).
- The unit uses information available from external sources such as state licensing exams, evaluations during an induction or mentoring year, employer reports, follow up studies, and state program reviews.
- The unit has procedures to ensure credibility of assessments: fairness, consistency, accuracy, and avoidance of bias.
- The unit establishes rubrics or criteria for determining levels of candidate accomplishment and completing their programs.
- The unit uses results from candidate assessments to evaluate and make improvements in the unit, and its programs, courses, teaching, and field and clinical experiences.
- In the evaluation of unit operations and programs, the unit collects, analyzes, and uses a broad array of information from course reviews, clinical practice opportunities, and faculty about diversity, unit governance, and leadership.

The processes of assessment and evaluation are data driven and require significant allocation of time and resources to accomplish. In the first year that these standards are applied to units, a well-developed assessment plan must be available. Each year thereafter, units will be expected to be implementing their assessment systems—collecting, compiling, and analyzing performance data; developing rubrics or criteria for decision making; and testing performance assessments. State licensure and assessment data should be available to Board of Examiners teams at the time of the on-site visit.

aging staff, writing the first grant application and seeking advice from colleagues and mentors.

Some questions that will be addressed at this workshop are listed below:
- What should be included in a start-up package?
- How do you decide what equipment you need for your research (what is a necessity and what is a bonus)?
- How to create a comprehensive list?
- How much space do you need?
- How much space can you negotiate?
- Negotiating initial teaching load to allow you to write grants to start your research?
- How select lab personnel?
- Are people friendly in terms of sharing equipment (on campus and at surrounding universities)?

EDUCATIONAL POLICY FORUM

Massachusetts Commissioner of Education David P. Driscoll will discuss “Public Education in the Commonwealth: Reflecting Back and Moving Forward” on Thursday, March 8, at 11:00 AM in the Campus Center, Second Floor Reading Room.

A former secondary school mathematics teacher, Driscoll has served over 40 years in the field of public education. As Commissioner of Education, he oversaw the development of the state’s curriculum frameworks, the implementation and expansion of the Massachusetts Comprehensive Assessment System (MCAS), the development of the state’s School and District Accountability System, and the development and administration of the Educator Certification Test and the new licensure regulations. Reflecting back on these and other changes in public education in the Commonwealth, Driscoll will also look ahead to consider future directions in the field.

This Educational Policy Forum with Commissioner Driscoll is sponsored by the Department of Educational Policy, Research and Administration in the School of Education.

CALL FOR APPLICATIONS/PROPOSALS

GRADUATE STUDENT TRAVEL GRANTS

The Graduate School will be awarding a limited number of student travel grants for graduate students who will be presenting at recognized conferences during the 2006-7 academic year. The application and expense summary can be downloaded from: www.umass.edu/gradschool > students > travel grant application

NOTE:

While P. 3 of the application will be signed by Linda Griffin, the Graduate Program Director, students must provide the requested student information for that page, as well as for pages 1 and 2. Students must also provide a written recommendation from their advisor or chairperson with their application.

Applications will be considered exclusively for travel to recognized conferences for the purpose of presenting the research conducted during graduate coursework at UMASS Amherst. Awards are for presentations rather than just attendance at a conference or event.

Criteria for nomination include merit of the project, prestige of the conference or event and financial need of the student.

Awards will be made to the individual student rather than for a project (divided among several students). Grant amounts are up to $ 300.00 for domestic and $ 400.00 for international travel. The Travel Grant Committee may not be able to fund all nominations that are forwarded for consideration.

DEADLINE to submit the complete application with faculty recommendation and expense summary to Linda Guthrie in the Graduate Program Office, 123 Furcolo:

FEBRUARY 28, 2007*

IMPORTANT

* While the Graduate School’s deadline is March 15th, Linda must receive your complete nominations by February 28th so that they can be reviewed and ranked ordered by the appropriate department and by Linda Griffin.
PROFESSIONAL DEVELOPMENT GRANTS

The President’s Office has opened its annual grant program, “Enhancing Teaching Through the Use of Technology” (formerly called “Professional Development Grants”). The Request for Proposals can be downloaded from http://media.umassp.edu/massedu/itc/ATGFY08.pdf. (The proposal deadline is February 23.)

This year’s program is expanded both in the amount of funds available and the proposal categories. Proposals are sought for Professional Development Grants, Strategic Initiative Grants, and Grants for Scholarship of Teaching and Learning with Technology. (Proposals may qualify under more than one category.)

For additional information, contact Mark Schlesinger at the President’s Office: mschlesinger@umassp.edu, 617-287-7102.

2007 UNH COMPOSITION CONFERENCE

October 12-13, 2007
http://www.unh.edu/composition/conference

Theme: Literacies--Personal, Professional, Academic

The University of New Hampshire is offering a composition conference with keynotes Ellen Cushman (Michigan State University), Paul Kei Matsuda (University of New Hampshire), Gwendolyn D. Pough (Syracuse University) and Stuart Selber (Penn State University). The focus will be on exploring literacy as it is learned inside and outside of school, and its multiple uses.

We invite proposals for 75-minute concurrent sessions. Sessions can be proposed by an individual or a group of presenters. We prefer interactive sessions and hope to avoid the reading of papers. Among the possible topics to be addressed are: literacy, technology and accessibility; multi-media literacies; virtual reading and writing communities; non-school sponsors of literacy; literacy norms and second language learners; literacy and popular culture; and new discourse conventions in academic writing.

Proposals should include: Session Title; Proposal Type (individual or group); Complete contact information of each presenter including name, address, daytime phone and email address; A 400-word session description as well as a 50-word summary.

Send to: UNH English Department, Attn: Composition Conference, 95 Main Street, Durham, NH 03824
Postmark deadline: Monday, May 14, 2007

Please direct all questions to Sabina Foote at: sabina.foote@unh.edu.

SMALL GRANTS IN SUPPORT OF DIVERSITY EDUCATION

The report of the Diversity Commission calls on the University administration to "support the development of more General Education Diversity courses that focus on issues of difference, culture, power and privilege." To that end, the Chancellor’s Action Plan proposes "incentive grants for curriculum and pedagogical development projects" in diversity education. (See http://www.umass.edu/campusdiversity/.) The Provost has allocated funds to support these grants and has asked the General Education Council to award them.

The Council will consider any proposal that promises to improve diversity education at the University, but there is a particular interest in proposals that address one or more of the following needs:

- Courses that satisfy the General Education U (U.S. diversity) requirement, especially from departments or colleges that currently offer few such courses. The Council welcomes proposals for new courses, for improvement of existing U courses, or for modifications of established courses to bring them into the scope of the U requirement.

- Programs to train and mentor teaching assistants or associates in diversity courses.

- Curricula that more fully integrate diversity education into the major. (These need not involve general education courses).
• Ideas for improving diversity education in large lecture courses.

• Ideas that readily scale up and transfer to other courses and departments.

The Center for Teaching will offer consultation to participants when they begin their projects and when they are ready to prepare their final reports. Participants will also meet regularly as a group to discuss their ideas and experiences.

Up to 10 grants of about $6,000 each are envisioned, but proposals for larger amounts will be considered with sufficient justification. This competition will occur annually, and renewals as well as new proposals will be considered. Collaborative and interdisciplinary projects are welcome.

The proposal cover sheet and instructions are available at http://www.umass.edu/provost/diversitygrant.html. Questions should be addressed to the chair of the General Education Council, Randall Knoper (knoper@english.umass.edu). The deadline for receipt of proposals is March 12, 2007.

EMPLOYMENT OPPORTUNITIES

TEACHING ASSISTANTSHIPS FOR 2007-2008
(OUTSIDE THE SCHOOL OF EDUCATION)

TO'S NEEDED FOR FIRST-YEAR WRITING PROGRAM

Each year the First Year Writing Program hires approximately 85 FTE TO's to teach English 111 and English 112. Of these, approximately 35 are new appointments. If you have graduate students who would, in your judgment, make good writing teachers, please encourage them to apply for a teaching associateship in the Writing Program.

In evaluating applicants, the staff considers the following:

- applicant's teaching/tutoring experience;
- applicant's related academic experience;
- applicant's understanding of and interest in Writing Program goals;
- assurance by departments that the applicant is making appropriate progress toward the degree, or has been accepted for graduate study;
- applicant's own ability to write clear prose in English.

Under the current contract; a teaching associate in the Writing Program teaches two sections of English 112 during the academic year. Class size is limited to 24. The scheduled stipend for 2007-2008 is $13,376.00.

Graduate students wanting to apply should complete our application form, available from the Writing Program office in 305 Bartlett Hall or from the Writing Program web site—http://writingprogram.hfa.umass.edu/teaching_res_info/forms_apps/teaching_application.asp. Completed applications must be submitted to the Writing Program by March 2, 2007.

HOMELESS CHILDREN NEED VOLUNTEERS

You don't see them on the streets. In fact, you’re probably not aware of them at all. But there are 80,000 of them right here in Massachusetts. They're homeless children. Child and family homelessness is a crisis in our community. Homeless kids are often transient, staying in shelters when they can, and even living in cars with their families. So they're out of sight, and unfortunately, out of mind. Well, Horizons for Homeless Children is here to help them. And you can help, too. By volunteering two hours per week, you can bring a lot of fun and relief to children living in shelter. We are looking for volunteers.
to go into shelters in Orange, Greenfield, Northampton, Springfield, Holyoke, and Amherst to play with the kids for two hours every week. If this is something you're interested in, please feel free to call us at 413-532-0467, email us at: creed@horizonsforhomelesschildren.org, or check out our website at http://www.horizonsforhomelesschildren.org/. You would be surprised at the difference just two hours a week can make.

In 1932 Dr. Montessori addressed the League of Nations in Geneva with the following words:

"The Science of Peace, were it to become a special discipline, would be the most noble of all, for the very life of humanity depends on it. So, also perhaps, does the question of whether our entire civilization evolves or disappears."

Montessori was convinced that peace, as a state of being, not just absence of hostility and war, is based on the peaceful development and emergence of children’s innate potential. Individuals who have fulfilled their potential are self-actualized contributors to life, who have found their purpose in life, have self respect and consequent respect and appreciation of others contributions. They are peaceable. They appreciate and collaborate not only with their fellow humans but with all living creatures and the planet on which we live.
