FAQ’s for Faculty:

UNACCEPTABLE

Field experiences are not linked to the development of proficiencies delineated in professional, state, and institutional standards. Field experiences and clinical practice do not reflect the unit’s conceptual framework(s) and do not help candidates develop the competencies delineated in standards. Clinical practice does not provide opportunities to use information technology to support teaching and learning. Clinical practice is not long or intensive enough for candidates to demonstrate their ability to take full responsibility for the roles for which they are preparing.

Criteria for clinical faculty are not known. Clinical faculty do not demonstrate the knowledge and skills expected of accomplished school professionals. Clinical faculty do not provide regular and continuing support for student teachers and other interns.

ACCEPTABLE

Field experiences facilitate candidates’ development as professional educators by providing opportunities for candidates to observe in schools and other agencies, tutor students, assist teachers or other school personnel, attend school board meetings, and participate in education-related community events prior to clinical practice. Both field experiences and clinical practice reflect the unit’s conceptual framework(s) and help candidates continue to develop the content, professional, and pedagogical knowledge, skills, and

dispositions delineated in standards. Clinical practice allows candidates to use information technology to support teaching and learning. Clinical practice is sufficiently extensive and intensive for candidates to demonstrate proficiencies in the professional roles for which they are preparing.

Criteria for clinical faculty are clear and known to all of the involved parties. Clinical faculty are accomplished school professionals. Clinical faculty provide regular and continuing support for student teachers and other interns through such processes as observation, conferencing, group discussion, email, and the use of other technology.

**TARGET**

Field experiences allow candidates to apply and reflect on their content, professional, and pedagogical knowledge, skills, and dispositions in a variety of settings with students and adults. Both field experiences and clinical practice extend the unit’s conceptual framework(s) into practice through modeling by clinical faculty and well-designed opportunities to learn through doing. During clinical practice, candidate learning is integrated into the school program and into teaching practice. Candidates observe and are observed by others. They interact with teachers, college or university supervisors, and other interns about their practice regularly and continually. They reflect on and can justify their own practice. Candidates are members of instructional teams in the school and are active participants in professional decisions. They are involved in a variety of school-based activities directed at the improvement of teaching and learning, including the use of information technology. Candidates collect data on student learning, analyze them, reflect on their work, and develop strategies for improving learning.

Clinical faculty are accomplished school professionals who are jointly selected by the unit and partnering schools. Clinical faculty are selected and prepared for their roles as mentors and supervisors and demonstrate the skills, knowledge, and dispositions of highly accomplished school professionals.

**FACULTY**

The Center for Education Policy has been contracted by the Department of Education in the state of Massachusetts to conduct a **two-stage review of Professional Standards and Indicators for the Principal and Superintendent roles**. In Phase 1, the team (led by Rebecca Gajda with assistance from Matt Militello and Sharon Rallis) will distill the Department of Education’s work to date, the leading standards efforts, and the best practices found in the research literature into a single, draft standards/indicators document, consistent with Massachusetts’ education reform vision. In this first phase, they will work to synthesize the DOE-provided standards documents and the research base into a single, clear, understandable, and actionable set of standards and indicators. In Phase 2, the CEP team will refine the draft standards and produce measurable, critical indicators for submission to the Board of Education as proposed amendments to the educator preparation and licensure regulations.

**Katie McDermott** has an article coming out in the *American Educational Research Journal* on the Development of Accountability in four states (MA, CT, VT, and NJ).

**Cris Smith** has been awarded funding ($1.1 million) from the Nellie Mae Education Foundation for a new project, the **Adult Transition Longitudinal Study (ATLAS)**, which will begin promptly. **Lisa Keller, Steve Sireci, Gretchen Rossman and Jacqi Mosselson** are also part of this project, which is a five-year longitudinal study looking at GED graduates involved in a college transition program.

**Benita Barnes** has been appointed to the editorial board for the *National Association of Student Personnel Administrators (NASPA) Journal* for a period of three years.

I went into SPIRE to make a grade change and the system will not take the change. What do I do?

After the SPIRE grading due date, change of grade forms (available in your department office) need to be filled out, signed and returned to Sally Dumont in the Associate Dean’s Office.

How do I change an approved course?

For MINOR course changes, see Sally Dumont in Room 123 Furcolo.

MAJOR changes require a “new” course proposal. New Course Proposal packets are available in the department offices. Fill out and return to your Department Chair for processing.

Many of the forms I have filled out require the signature of the “Graduate Program Director”. To whom should I be sending the forms?

The Graduate Program Director is Linda Griffin. If you require her signature, please bring your form to Linda Guthrie, Room 123 Furcolo.

Do we still require GRE’s as an entrance requirement?

No, GRE’s are not required from students applying to the School of Education.

If a student needs to be:

- Readmitted
- Have full-time status verified
- Have statute of limitations extended
- Defer loans
- Take a leave of absence
- Have full/part-time status verified for child care

Or, transfer credits, what do I do?

Send an email with your request to Linda Guthrie (lguthrie@educ.umass.edu). It is helpful if you can send the student’s full name and SPIRE ID number along with other pertinent information. Linda Guthrie will then process a memo for Linda Griffin’s signature as the Graduate Program Director. DO NOT go to the Graduate School directly. They cannot assist you without Linda Griffin’s signature. It will only hold up your request.

SMALL GRANTS IN SUPPORT OF DIVERSITY EDUCATION

The report of the Diversity Commission calls on the University administration to "support the development of more General Education Diversity courses that focus on issues of difference, culture, power and privilege." To that end, the Chancellor’s Action Plan proposes "incentive grants for curriculum and pedagogical development projects" in diversity education. (See http://www.umass.edu/campusdiversity/) The Provost has allocated funds to support these grants and has asked the General Education Council to award them.

The Council will consider any proposal that promises to

(Continued on page 8)
improve diversity education at the University, but there is a particular interest in proposals that address one or more of the following needs:

- Courses that satisfy the General Education U (U.S. diversity) requirement, especially from departments or colleges that currently offer few such courses. The Council welcomes proposals for new courses, for improvement of existing U courses, or for modifications of established courses to bring them into the scope of the U requirement.
- Programs to train and mentor teaching assistants or associates in diversity courses.
- Curricula that more fully integrate diversity education into the major. (These need not involve general education courses).
- Ideas for improving diversity education in large lecture courses.
- Ideas that readily scale up and transfer to other courses and departments.

The Center for Teaching will offer consultation to participants when they begin their projects and when they are ready to prepare their final reports. Participants will also meet regularly as a group to discuss their ideas and experiences.

Up to 10 grants of about $6,000 each are envisioned, but proposals for larger amounts will be considered with sufficient justification. This competition will occur annually, and renewals as well as new proposals will be considered.

Collaborative and interdisciplinary projects are welcome.

The proposal cover sheet and instructions are available at [http://www.umass.edu/provost/diversitygrant.html](http://www.umass.edu/provost/diversitygrant.html). Questions should be addressed to the chair of the General Education Council, Randall Knoper (knoper@english.umass.edu). The deadline for receipt of proposals is March 12, 2007.

## UPCOMING CONFERENCES

### INSTRUCTIONAL TECHNOLOGY CONFERENCE

The Scholarship of Teaching & Learning: Technology & Reflective Practice is the theme of this year’s Information Technology conference. Registration is no open at: [http://www.massachusetts.edu/it/itcregistration.cfm](http://www.massachusetts.edu/it/itcregistration.cfm). The conference will be held on April 5, 2007 at the Sturbridge Host Hotel, Sturbridge, Massachusetts from 8:00 a.m. to 4:00 p.m.

Keynote Speaker is Randy Bass (for bio, see [http://www.georgetown.edu/faculty/bassr/bassbio.htm](http://www.georgetown.edu/faculty/bassr/bassbio.htm)) Professor of American Studies, Georgetown University; Executive Director, Center for New Designs in Learning and Scholarship; Director, Visible Knowledge Project.

From the mid 1990’s until 2000, the Information Technology Council sponsored an annual "UMass Instructional Technology Conference." On April 5, 2007, we shall begin anew. Some issues have not changed: how do we adopt and adapt instructional technology to best meet the institution's commitment to excellence in learning? With "Web 2" technologies affording richer teaching and learning environments, the choices, challenges, and opportunities are more abundant than ever. The question isn't whether to adopt particular technologies. It's how better to understand and build on their capability to enhance learning and teaching. This conference will present the best current thinking on what questions to ask, what insights to build on.

See UMass faculty and staff discuss and demonstrate their innovative ventures in such areas as electronic portfolios, video capture, podcasting, personal response systems, collaborative applications, tablet PC's and PDA's, and resources in support of scholarly research. Visit with vendors of hardware and software products related to these same ventures.

Attendance, parking, and food are free. Session schedule forthcoming.
