RESEARCH & ENGAGEMENT

🎉 Announcements

Brenda Muzeta was awarded a 2017 Summer Dissertation Fellowship to assist in the completion of her data analysis and write-up of the Results Chapter. Brenda takes a broad interest in issues pertaining to language, culture, race and identity. Over the course of her teaching career, she has had the opportunity to work with students from diverse cultural backgrounds. Her current research explores how African high school students (re) negotiate their identities within the context of US public schools. The study further seeks to describe, interpret and understand how African high school students make sense of their new learning environment [with regard to their teachers, peers, and the curriculum] as they adapt to a new language and culture.

The Institute for Social Science Research (ISSR) has moved. Their new location is E22 Machmer Hall
