FORMATION OF DISSERTATION COMMITTEE

BRIE CIAMPAGLIA  Proposed Dissertation Title: "An Analysis of School Wide Supports and Barriers to Collaborative Problem Solving Teams." Statement of the Problem: There is preliminary evidence supporting the use of collaborative problem solving teams in schools (e.g., Kovaleski, Gickling, Morrow & Swank, 1999; Telzrow et al., 2000). However, only a few outcome measures have been explored in relation to these procedures, and the results have been inconsistently found across projects (Burns & Symington, 2002). Additionally, it has been found that many school teams are inconsistent in their implementation of quality consultation procedures (e.g., Telzrow et al; 2000; Dollet al., 2005). Unfortunately the positive outcomes that have been associated with collaborative problem solving teams cannot be implied in practice until there is evidence that these procedures can be incorporated into real life situations (Telzrow et al., 2000).

Chairperson: Dr. John Hintze.

MUKUL ACHARYA  Proposed Dissertation Title: "Saving for Change: A Microfinance Model for Reaching the Poorest. Indications from the Oxfam America's Program in Mali." Statement of the Problem: Microfinance has emerged as an effective developmental intervention to reduce poverty. Using various approaches, methodologies and models, it has been able to reach a large number of the poor. However, reaching the poorest has continued to be a challenge.

Chairperson: Dr. David R. Evans.
