Congratulations to Margaret (Margy) Pierce, who has received a Healy/Faculty Research Grant for a project starting in Fall 2007. Due to poorly equipped teachers and a lack of effective intervention curricula, most children diagnosed with mathematics learning disabilities are left to make slow and painstaking gains. As an initial step in improving education for children with math learning disabilities (MLD), Pierce’s study, entitled “When It Just Doesn’t Add Up: Examining the Manifestation of Math Difficulty Among Fifth and Sixth Graders with Learning Disabilities,” addresses a series of research questions designed to identify the children with learning disabilities who struggle with high stakes math tests and determine what cognitive and academic measures predict which children with disabilities will exhibit difficulty on various aspects of high stakes mathematics tests.

Bob Maloy was recently award a Public Service Endowment Grant that will assist in the pilot implementations of a working prototype of an online intelligent tutoring system to help 4th graders with the state’s MCAS test. FORMATION OF DISSERTATION COMMITTEE

RHONDA MORRISON  Proposed Dissertation Title: "The Effect of Color Overlays on Reading Efficiency."  Statement of the Problem: Reading is a cultural imperative in an information society. Those who experience reading problems are at risk of failure in these areas. It is important that interventions designed to help struggling readers demonstrate empirical evidence of their effectiveness. Helen Irlen proposed a syndrome that looks at the role of visual perception in reading. Individuals who suffer from this syndrome are reported to experience visual perceptual distortions when reading high contrast text. These distortions are believed to be a factor that may hinder reading efficiency. Color overlays are purported to reduce the visual distortions and increase reading efficiency.

Chairperson: Dr. William Matthews.

FORMATION OF DISSERTATION COMMITTEE

SOLOMON ABRAHAM  Proposed Dissertation Title: "The Experiences of African Migrant Students in a U.S. Mathematics Classroom."  Statement of the Problem: The study looks at the social/cultural dilemmas that African migrant students could possibly face in dealing with modern day mathematics in U.S. classrooms, distinct from what they may have faced in African mathematics classrooms.

Chairperson: Dr. Maurianne Adams.

FORMATION OF DISSERTATION COMMITTEE

ELANA R. WEINBERGER  Proposed Dissertation Title: "A Program Evaluation of School-wise Positive Behavior Support in an Alternative Education Program."  Statement of the Problem: Positive behavior support (PBS) focuses on the use of positive reinforcement and educational methods to teach and promote positive behavior, and, secondarily, to eliminate problem behavior. PBS can be implemented as an intervention within a three tier model of service delivery, in which the intensity of the intervention can be adjusted to fit the needs of all students in a school (school-wide PBS). The proposed three phase program evaluation will 1) evaluate the strengths and weaknesses of a school-wide PBS program, 2) suggest and implement changes based on those results, and 3) evaluate the associations between the implemented changes and positive behavior of students in the program. Additionally, integrity of program implementation, as well as student and staff perceptions of the program will be evaluated.

Chairperson: Dr. William Matthews.

FORMATION OF DISSERTATION COMMITTEE

ROBERT R. KELLER  Proposed Dissertation Title: "A Comparison of IRT True Score Equating and IRT-based Local Equating."  Statement of the Problem: Local Equating is a new method for equating observed scores under IRT. It is unknown under what conditions, if any, it is an improvement over traditional IRT methods.

Chairperson: Dr. Craig Wells.

**ENGLISH FOR SPECIFIC PURPOSES (ESP) INSTITUTE**

The Indiana Center for Intercultural Communication (ICIC) in the I.U. School of Liberal Arts at Indiana University-Purdue University (IUPUI) is pleased to offer the Eighth Annual English for Specific Purposes (ESP) Institute on July 9-20, 2007. Coordinated by Dr. Ulla Connor, courses taught by Dr. Ulla Connor and Dr. William Rozycki.

**What is the ESP Institute?**

An intensive, two-week institute to introduce ESL practitioners and English language educators to English for Specific Purposes.

Two courses, offered through IUPUI meet for two weeks:

**Linguistics T600:** Issues in ESP (3 credit hours), M-F

This course will provide learners with the historical and theoretical background of ESP, especially ESP in the U.S. Theories and models for teaching ESP will be evaluated.

**English G541:** Materials Development for TESOL (4 credit hours), M-F

This course looks at needs analysis and the creating/adapting of ESL teaching materials for use in specific settings.

Workshops by visiting ESP researchers/practitioners, guest speakers from Indiana companies addressing workplace issues, presentations by ESL professionals.

**For whom is the ESP Institute designed?**

- Individuals currently involved in English for academic or professional purposes
- Teachers of English as a second language (ESL) or as a foreign language who wish to acquire skills for teaching ESP in the workplace

**What are the benefits of completing the ESP Institute?**

- Acquisition of the skills and knowledge base to set up a basic ESP program (needs analysis, syllabus and course design, materials development, program implementation, evaluation)
- Accessibility to ICIC staff and resources on future language training issues
- Opportunity to continue studies toward a 21-credit hour certificate in TESL with emphasis on ESP
- Insight into an innovative teaching approach

**How do I register?**

IUPUI/IU students can register via the internet at: [https://onestart.iu.edu/my-prd/Portal.do](https://onestart.iu.edu/my-prd/Portal.do)

or (317) 274-1501

Non-IUPUI/IU students should contact the Graduate Non-Degree Program at: [http://www.iupui.edu/~resgrad](http://www.iupui.edu/~resgrad) or (317) 274-1577

(Continued on page 6)
Those wishing to take this for no university credit should contact ICIC directly ($1,000 for both courses, $600 for either T600 or G541 individually).

For more information, please contact: ICIC at (317) 274-2555, icic@iupui.edu, www.iupui.edu/~icic.

Information for international participants: For non-credit registration we believe that a tourist visa accommodates this activity. For credit options, internationals would need J-1 visas.

Faculty make candidate and P–12 student learning central in their professional work. They are actively engaged as a community of learners and model good teaching. They inquire systematically into and reflect upon their own practice and are committed to lifelong professional development. Faculty provide leadership in developing, implementing, and evaluating preparation programs that embrace diversity and that are rigorous, relevant, and grounded in theory, research, and best practice. They collaborate with members of the university and professional community to improve teaching, learning, and teacher education. They serve as advocates for high-quality education for all students, public understanding of educational issues, and excellence and diversity in the education professions. They also contribute to improving the teacher education profession. Faculty are actively involved in professional associations as shown through their provision of education-related service and leadership at the local, state, national, and international levels.

Professional education faculty are teacher scholars who value teaching and learning in their own work. They inquire into and contribute to one or more areas of scholarly work related to teaching, learning, or teacher education. They exhibit intellectual vitality in their teaching, scholarship, and service. Scholarship is broadly defined and extends beyond traditional research and publications. Scholarly inquiry may include application of knowledge, interpretation or integration of current research findings in new settings, and rigorous and systematic study of pedagogy. All scholarly inquiry includes submission of one's work for professional review and evaluation.

One of the roles of faculty is to be aware of new and developing research in their fields and emerging theories and practice. They are engaged in deepening understanding of research and practice that informs their work. Professional education faculty model the use of performance assessments in their own work. They are assessing the effects of their teaching on the learning of candidates and using their findings to strengthen their own practice. They are also expanding their knowledge of and skills related to diversity and exceptionalities and integrating these concepts in their teaching. They continue to develop their skills in using technology to facilitate their own professional work and to help candidates learn. Faculty participate in professional development activities through their own initiatives or those conducted, sponsored, or arranged by the unit to enhance teaching competence and intellectual vitality.

The unit’s responsibility for the performance of professional education faculty includes systematic and comprehensive evaluations conducted by both candidates and peers. Evaluations are designed to collect data on the quality of faculty teaching, scholarly contributions, and service. They are used to improve faculty performance through the provision and support of professional development activities.
