IMPORTANT
ATTENTION INTERNATIONAL STUDENTS

The screening test of Spoken English Communication skills for fall semester 2007 will be conducted from September 5 to September 17, 2007. The purpose of the test is to identify any potential difficulties international teaching assistants may have in understanding spoken English or in being understood in the undergraduate classroom.

All incoming international teaching assistants/associates (ITAs and ITOs) and returning students who will be assuming TA responsibilities for the first time are required to demonstrate their oral English proficiency by passing a test of spoken English. A standardized test, (SPEAK test), designed by the Educational Testing Service, is used for assessing and measuring the spoken English ability of International Teaching Assistants. A score of 50 or above is required to pass the test. We recommend that students who are not currently funded but who may be funded for a TA or TO position in the future should also take the test.

Students who do not pass the test are encouraged to either participate in the English communication instruction classes, offered by the Graduate School, or enroll in another suitable program recommended by their Graduate Program Director (GPD).

The English communication classes are free, meet in small groups for one hour twice a week and are offered throughout the academic year and summer. When space is limited, priority is given to those with the greatest need. Therefore, students with a score of 45 are included in classes on a space available basis. At the end of each semester, students are reevaluated and progress report is sent to the graduate program directors. Students, who do not meet the criteria, may continue in the Communication Instruction classes for additional semesters. International Research Assistants and graduate students without funding may participate in the instructional classes offered during spring and summer on a space available basis.

A schedule for the screening test is enclosed for your information. It would be very helpful to us if you could pass this information on to ITAs in your department. We would also appreciate it greatly if you could let us...

**FORMATION OF DISSERTATION COMMITTEE**

KRISTEN B. FRENCH Proposed Dissertation Title: Decolonizing Multicultural Teacher Education. Statement of the Problem: In the realm of teacher education, there is a need for "survivance," a hopeful resistance to rhetorical and political practices that alienate or fail neocolonial students and miseducate and perpetuate the status quo of student who benefit from the neocolonial conditions in U.S. schools. In order to create a climate of change, preservice teachers must engage with multicultural issues pertaining to U.S. schools and see themselves as agents for this change. Therefore, a discussion and plan of action that involves that critical reflection of preservice teachers needs to be theorized between multicultural teacher education and the challenges that lie ahead for both the field and for decolonizing theory. This includes a historical understanding of survivance by groups throughout the neocolonial United States. By defining decolonizing theory, with all the complexities inherent in doing so, as well as grappling with contemporary issues of multicultural teacher education, including the voices of the preservice teachers in the trenches, the possibility of identifying the goals of decolonizing multicultural teacher education becomes a hopeful reality.
