Application deadline: December 22, 2009

From the University Store and Textbook Annex—20% discount

The University Store and Textbook Annex will be celebrating its annual Faculty/Staff Appreciation days on Thursday, December 10th and Friday December 11th.

We will extend a 20% discount on all non-computer-related merchandise. We thank all those in the University community for your support throughout the year and hope you'll stop by and let us express our appreciation in person.
FORMATION OF DISSERTATION COMMITTEE

LORI CORCORAN  Proposed Dissertation Title: "Factors Influencing Transition and Persistence in the First Year for Community College Students with Disabilities." Statement of Problem: Much research has been conducted on the retention and persistence of college students (e.g. Allen, 1999; Berger & Lyon, 2005; Goodman & Pascarella, 2006; Milem & Berger, 1997; Tinto, 1993). However, despite the voluminous literature on this topic, individuals with disabilities are one group of college students that remains under-studied despite being among the most vulnerable and at-risk populations (Belch, 2004; Lane & Carter, 2006; Vogel & Adelman, 1992). This at-risk population is an increasingly important area of study as the number of college students with documented disabilities continues to grow each year. The percentage of college freshmen reporting disabilities increased from less than 3 percent in 1978 to 11.3 percent in 2004 (http://nces.ed.gov/fastfacts/display.asp?id=60). According to Flick-Hruska and Blythe (1992), the increase is due to mainstreaming in high schools, postsecondary institutional efforts to make facilities and programs accessible to students with disabilities, and students’ perceptions that higher education provides a choice for more independence as well as advancement in employment opportunities. Although the rates of enrollment for students with disabilities are increasing, the rates of persistence are not. Only 36% of students with learning disabilities received a degree within five years in contrast to 50% of students without a disability in a study from three large school districts in the northwestern United States (Murray, Goldstein, Nourse, & Edgar, 2000). In addition, findings from the National Education Longitudinal Study indicate that students with disabilities are attending community colleges more frequently because they may be less academically prepared for college than those without a disability (Horn & Berktold, 1999). Survey results from 1995-96 indicate that 21% of students with a disability at a public two-year institution reported taking at least one remedial course compared to 14% of students without a disability. In order to better address this concern of persistence, a deeper understanding is needed regarding the factors that influence transition and persistence of first-year college students with disabilities.  Chairperson: Dr. Joseph B. Berger.

FORMATION OF DISSERTATION COMMITTEE

DANIEL SAUNDERS  Proposed Dissertation Title: “Neoliberal Ideology and Higher Education: Examining the Pervasiveness of Economic Rationality in First-Year College Students.” Statement of the Problem: Scholars have documented meaningful changes in college students over the past thirty years, including their increasingly extrinsic goals and motivations, their embracement of a customer identity, and the pervasiveness of an individualistic approach to higher education. While this new approach to education can be understood as a manifestation of neoliberal ideology, scholars who document and discuss it mostly ignore the influence of neoliberalism. At the same time, critical scholars have discussed the ways in which neoliberalism has transformed higher education, but give little attention to college students. The former body of literature cannot properly understand the historical changes and current realities of college students without placing them within the dominant ideology of neoliberalism, and the latter body of literature cannot fully capture the impact of neoliberalism on higher education without specifically investigating college students.  Chairperson: Dr. Gary D. Malaney.
Thesis and Dissertation Formatting with Microsoft Word

Spring 2010

The Office of Information Technologies offers workshops with detailed instructions on how to format a thesis or dissertation to meet the requirements of the University of Massachusetts Graduate School with Microsoft Word for Windows or Macintosh. The workshops include margins, footnotes, bibliographies, page numbering, headings, table of contents, etc. as well as advice about electronic submission. Because Word 2007 is quite different from previous versions of Word, there are two workshops: one for users of Word 2007 (including people who will be working in the OIT classrooms), and one for other versions of Word (Mac or Windows).

The workshops

Word 2007
Wednesday, February 17    1:30 PM – 4:30 PM
Tuesday, February 23    9:30 AM – 12:30 PM

Word (other versions)
Thursday, February 18    9:30 AM – 12:30 PM
Monday, March 1    1:30 PM – 4:30 PM

Registration
Registration is required and is not complete until you have paid the $10 fee and told us which version of Word you are using. These classes fill early - do not wait until the last minute to register. To register, go to the Administrative Desk in A119 Lederle GRC (545-9730). For information, send email to workshops@oit.umass.edu

Prerequisite: Some knowledge of the version of Microsoft Word that you are using.

Course materials on Web or CD; course materials are also available on the OIT Web site: www.oit.umass.edu/workshops/tutorials.html. Or purchase a course packet and CD from OIT for $5 plus tax. Consulting on formatting issues: contact Elisa Campbell: campbell@oit.umass.edu
