

## CURRICULUM VITAE, ABBREVIATED

Professor, Department of Food Science, University of Massachusetts, Amherst

Education: Department of Bacteriology and Food Research Institute, University of Wisconsin, Madison; M.S., Ph.D., Bacteriology

Department of Microbiology, University of New Hampshire, B.S.,  
Microbiology

HONORS: Fellow, American Academy of Microbiology

PUBLICATIONS (since 1990):

Park, K. and Labbe, R. 1990. Proteolysis of Clostridium perfringens type A enterotoxin during purification. *Infection and Immunity*. 58:1999-2001.

Park, K. and Labbe, R. 1991. Purification and characterization of intracellular proteases of Clostridium perfringens type A. *Canadian Journal of Microbiology* 37:19-23.

Labbe, R. 1991. Clostridium perfringens In: *Compendium of Methods for the Microbiological Examination of Foods*, American Public Health Association, Washington, D.C. pgs. 623-635.

Park, K. and Labbe, R. 1991. Isolation and characterization of extracellular proteases of Clostridium perfringens type A. *Current Microbiology* 23:215-219.

Labbe, R. 1991. Clostridium perfringens. *Journal of the Association of Official Analytical Chemists* 74:711-414.

Heredia, N., Labbe, R. Rodriguez, M., and Garcia-Alvarado, J.S. 1991. Growth, sporulation, and enterotoxin production by Clostridium perfringens type A in the presence of human bile salts. *FEMS Microbiology Letters* 84:15-22.

Labbe, R. 1992. Clostridium perfringens gastroenteritis. In: *Handbook of Natural Toxins*, Volume 7, pg. 103-118, A. Tu (editor), Marcel Dekker, Inc., New York.

Garcia-Alvarado, J., Labbe, R., and Rodriguez, M. 1992. Sporulation and enterotoxin production by Clostridium perfringens type A at 37°C and 43°C. *Applied and Environmental Microbiology* 58:1411-1414.

Ryu, S. and Labbe, R. 1992. Kinetics of coat protein synthesis by Clostridium perfringens type A. *Current Microbiology* 25:35-40.

Garcia-Alvarado, J., Rodriguez, M. and Labbe, R. 1992. Influence of elevated temperature on starch hydrolysis by enterotoxin-positive and enterotoxin-negative strains of Clostridium perfringens type A. *Applied and Environmental Microbiology*. 58:326-330.

Garcia-Alvarado, J.S., Labbe, R. and Rodriguez, M. 1992. Isolation of inclusion bodies from vegetative Clostridium perfringens: partial purification of a 47 kDa inclusion protein. *Journal of Applied Bacteriology*. 73:157-162.

- Ryu, S. and Labbe, R. 1992. Stimulation of the onset of sporulation of Clostridium perfringens type A by netropsin and distamycin. *Current Microbiology* 25:183-187.
- Labbe, R. 1993. Clostridium perfringens: occurrence, detection, food poisoning. In: Encyclopedia of Food Science, Food Technology and Nutrition, R. Macrae, R. Robinson and M. Sadler (eds.) pg. 1043-1052, Academic Press, London.
- Ryu, S. and Labbe, R. 1993. A 48 kilodalton enterotoxin-related protein from Clostridium perfringens vegetative and sporulating cells. *International Journal of Food Microbiology* 17:343-348.
- Shih, N.G. and Labbe, R. 1994. Effect of glucose on sporulation and extracellular amylase production by Clostridium perfringens. *Current Microbiology*. 29:163-169.
- Heredia, N., Garcia-Alvarado, J.S., and Labbe, R. 1994. Improved rapid method for production and purification of Clostridium perfringens type A enterotoxin. *Journal of Microbiological Methods*. 20:87-91.
- Melville, S., Labbe, R. and Sonenshein, A. 1994. Expression from the Clostridium perfringens *cpe* promoter in C. perfringens and Bacillus subtilis. *Infection and Immunity*. 12:5550-5558.
- Shih, N. and Labbe, R. 1995. Purification and characterization of an extracellular  $\alpha$ -amylase from Clostridium perfringens type A. *Applied and Environmental Microbiology* 61:1776-1779.
- Labbe, R. and Chang, C. 1995. Recovery of heat-injured spores of Clostridium perfringens types B, C, and D by lysozyme and an initiation protein. *Letters in Applied Microbiology* 21:302-306.
- Labbe, R. and Huang, T. 1995. Generation times and modeling of enterotoxin-positive and enterotoxin-negative strains of Clostridium perfringens in laboratory media and ground beef. *Journal of Food Protection*. 58:1303-1306.
- Shih, R. and Labbe, R. 1996. Sporulation-promoting ability of Clostridium perfringens culture fluids. *Applied and Environmental Microbiology* 62:1441-1443.
- Shih, R. and Labbe, R. 1996. Characterization and distribution of amylases during vegetative cell growth and sporulation of Clostridium perfringens. *Canadian Journal of Microbiology* 42:628-633.
- Rasmussen, T. and Labbe, R. 1996. Recoverability of heat-injured Bacillus spores by lysozyme and EDTA or alkaline thioglycollate. *World Journal of Microbiology and Biotechnology*, 12:595-599.
- Labbe, R. and Lee, K.R. and Perry, P. 1996. Lack of correlation between the enterotoxigenicity of Clostridium perfringens isolates and propionic acid formation or amylase activity at 46°C. *Journal of Food Protection*, 59:1227-1229.
- Labbe, R. and Shih, R. 1997. Physiology of sporulation of the Clostridia. In: *Molecular Biology and Pathogenesis of the Clostridia*. J. Rood, B. McClane, G. Songer, and R. Titball (eds.) p. 21-34, Academic Press.
- Lavoie, J., Labbe, R., and Chinachoti, P. 1997. Growth of Staphylococcus aureus as related to <sup>17</sup>O NMR water mobility and water activity. *Journal of Food Science*. 62:861-866.

Heredia, N., Garcia, G., Luevanos, R., Labbe, R., and Garcia, J.S. 1997. Elevation of the heat resistance of vegetative cells and spores of Clostridium perfringens type A by sublethal heat shock. *Journal of Food Protection*. 60:998-1000.

Rodriguez-Romo, L., Heredia, N., Labbe, R., and Garcia, J.S. 1998. Detection of enterotoxigenic Clostridium perfringens in spices used in Mexico by dot blotting using a DNA probe. *Journal of Food Protection*. 61:201-204.

Shetty, K. and Labbe, R. 1998. Foodborne pathogens, health and role of dietary phytochemicals. *Asia Pacific Journal of Clinical Nutrition* 7: 270-276.

Heredia, N., Labbe, R. and Garcia, J.S. 1999. Alteration in sporulation, enterotoxin-production and protein synthesis by Clostridium perfringens type A following heat shock. *Journal of Food Protection*. 61:1143-1147.

Labbe, R. 2000. Clostridium perfringens. In: *The Microbiology of Food*. B. Lund, A.C. Baird-Parker, and G. Gould (eds.) vol. II, pg. 1110-1135, Aspen Publishers Inc., Gaithersburg, Maryland.

Tseng, W.J. and Labbe, R. 2000. Characteristics of a sporulation stimulating factor from Clostridium perfringens. *Letters in Applied Microbiology* 30:254-257.

Kim, S., Labbe, R. and Ryu, S. 2000. Inhibitory effects of collagen on the polymerase chain reaction for the detection of *Clostridium perfringens*. *Applied and Environmental Microbiology* 66:1213-1215.

Labbe, R., Kinsley, M. and Wu, J. 2001. Limitations in the use of ozone to disinfect maple sap. *Journal of Food Protection* 64:104-107.

Heredia, N. and Labbe, R. 2001. *Clostridium perfringens*. In: *Guide to Foodborne Pathogens*, R. Labbe and S. Garcia (eds.), pgs 133-141. John Wiley & Sons, New York.

Labbe, R. and Juneja, V. 2002. *Clostridium perfringens*. In: *Foodborne Diseases*, 2<sup>nd</sup> Edition, D. Cliver and H. Riemann, (eds.), pgs 119-126. Academic Press, San Diego, California.

Lin, Y.T. and Labbe, R. 2003. Enterotoxigenicity and genetic relatedness of *Clostridium perfringens* isolates from retail foods in the U.S. *Applied and Environmental Microbiology*, 69:1642-1646.

Labbe, R. 2003. *Clostridium perfringens*: occurrence, detection, food poisoning. In: *Encyclopedia of Food Sciences and Nutrition*, 2<sup>nd</sup> Ed., B. Caballero, L. Trugo, and P. Finglas, (eds.), Elsevier Science, London.

Seaberg, A., Labbe, R. and Shetty, K. 2003. Inhibition of *Listeria monocytogenes* by elite clonal extracts of oregano (*origanum vulgare*). *Food Biochemistry* 17: 129-149.

Lin, Y., Labbe, R., and Shetty, K. 2004. Inhibition of *Listeria monocytogenes* in fish and meat systems by use of oregano and cranberry phytochemical synergies. *Applied and Environmental Microbiology* 70: 5672-5678

Heredia, N., Arechiga, E., Labbe, R., and Garcia, S. 2003. Stress proteins *Clostridium perfringens* type A immunoreact with antiserum from rabbits infected with gas gangrene. *International Microbiology* 6: 259-261

Lin, Y.T., Labbe, R. and Shetty, K. 2004. Inhibition of *Listeria monocytogenes* in fish and meat activity against select foodborne pathogens. *Innovative Food Science and Emerging Technologies* 5: 81-91

McCue, P., Lin Y-T., Labbe, R., and Shetty, K. 2004. Sprouting and solid state bioprocessing by dietary fungi increase in vitro anti *Helicobacter pylori* activity of aqueous soybean extracts. *Food Biotechnology* 18: 229-249

Vattem, D., Lin, Y.-T., Labbe, R., and Shetty, K. 2004. Phenolic antioxidant mobilization in cranberry pomace by solid-state bioprocessing using food grade fungus *Lentinus edodes* and effect on antimicrobial activity against select food borne pathogens. *Innov. Food Sciece Emerg. Technol.* 5:81-91.

Vattem, D., Lin, Y-T., Labbe, R., and Shetty, K. 2004. Antimicrobial activity against select foodborne pathogens by phenolic antioxidants-enriched cranberry pomace by solid state bioprocessing using food-grade fungus *Rhizopus oligosporus*. *Process Biochemistry* 39: 1939-1946

Lin, Y., Vattem, D., Labbe, R and Shetty, K. 2005. Enhancement of antioxidant activity and inhibition of *Helicobacter pylori* by phenolic phytochemical-enriched alcoholic beverages. *Process Biochemistry* 40: 2059-2065.

Nolan, L and Labbe, R. 2005. Future of natural products from plants in the struggle with emerging diseases: case of foodborne pathogens and leishmaniasis. *Journal of Herbs, Spices and Medicinal Plants.* 11:161-190

Labbe, R. 2005. Sporulation (Morphology) of the Clostridia. In: *Handbook of the Clostridia*, P. Durre (ed.), pgs. 647-658., CRC Press.

Ho, C., Lin, Y., Labbe, R., and Shetty, K. 2005. Inhibition of *Helicobacter pylori* by phenolic extracts of sprouted peas. *Journal of Food Biochemistry* 30:21-34.

Lin, Y., Labbe, R. and Shetty, K. 2005. Inhibition of *Vibrio parahaemolyticus* in seafood systems using oregano and cranberry synergies and lactic acid. *Innovative Food Science and Emerging Technologies* 6:453-458.

Lin, Y. Kwon, Y., Labbe, R., and Shetty, K. 2005. Inhibition of *Helicobacter pylori* and associated urease by oregano and cranberry phytochemical synergies. *Applied and Environmental Microbiology* 71:8558-8564.

Labbe, R. and Juneja, V. 2006. *Clostridium perfringens* gastroenteritis. In: *Foodborne Infections and Intoxications*, 3<sup>rd</sup> Ed., D Cliver and H. Riemann (eds.), pgs.137-184. Elsevier.

Kwon, Y., Apostolidis, E., Labbe, R., and Shetty, K. 2006. Inhibition of *Staphylococcus aureus* by phenolic phytochemicals of selected clonal herb species of Lamiaceae family and likely mode of action through phenolic oxidation. *Food Biotechnology* 21:71-89

Hsieh, P. and Labbe, R. 2007. Influence of peptone source on sporulation of *Clostridium perfringens* type A. *Journal of Food Protection.* 70:1730-1734.

Rahmati, T. and Labbe, R. 2008. Levels and toxigenicity of *Bacillus cereus* and *Clostridium perfringens* in U.S. retail seafood. *Journal of Food Protection.* 71:1178-1185.

Ankolekar, C. and Labbe, R. 2009. *Bacillus cereus* and *Bacillus thuringiensis* spores in U.S rice. International Journal of Food Microbiology 128:460-465.

Labbe, R. and Nolan. 2009. Food preservation techniques other than heat and radiation. In: Heredia, N., Wesley, I. and Garcia, S. (eds) p.485-506. Microbiologically Safe Foods, John Wiley and Sons.

Juneja, V., Novak, J., and Labbe, R. 2009. *Clostridium perfringens*. In: Pathogens and Toxins in Foods: Challenges and Interventions, in press.

Ankolekar, C. and Labbe, R. 2009. Detection of toxigenic *Bacillus cereus* and *Bacillus thuringiensis* spores in U.S. rice. International Journal of Food Microbiology. 128:460-466.

Ankolekar, C. and Labbe, R. 2009. Survival during cooking and growth from spores of diarrheal and emetic types of *Bacillus cereus* in rice. Journal of Food Protection. 72:2386-2389.

Ankolekar, C. and Labbe, R. 2010. Physical characteristics of spores of food-associated isolates of the *Bacillus cereus* group. Applied and Environmental Microbiology 76:982-984.

Juneja, V., Novak, J., and Labbe, R. 2010. *Clostridium perfringens*, pgs 53-70. In: Pathogens and toxins in foods. V. Juneja and J. Sofos, (eds.) ASM Press, Washington DC.

Labbe, R. and Grant, K. 2011. *Clostridium perfringens* in food service. pgs. 381-392. In: J. Hoofar (ed.) Rapid detection, characterization and enumeration of foodborne pathogens. ASM Press, Washington Dc.
