Two Ways to Connect
Choose eduroam or UMASS from your list of available networks.

eduroam
eduroam is the encrypted wireless network at UMass Amherst for students, faculty, and staff. For more details, and instructions on connecting, see: www.umass.edu/it/wireless

UMASS
UMASS is the unencrypted, less secure, way to connect for members of the UMass Amherst community and campus guests. For more details, and instructions on connecting, see: www.umass.edu/it/wireless

Key
- Full Coverage (with some exceptions)
- Partial Coverage (classrooms* and open areas)
- Outdoor Coverage (approximate)

* officially recognized classrooms scheduled through the Registrar’s Office
