I shall begin by defining civil disobedience as a public, nonviolent, conscientious yet political act contrary to law usually done with the aim of bringing about a change in the law or policies of the government.\textsuperscript{19} By acting in this way one addresses the sense of justice of the majority of the community and declares that in one's considered opinion the principles of social cooperation among free and equal men are not being respected. A preliminary gloss on this definition is that it does not require that the civil disobedient act breach the same law that is being protested.\textsuperscript{20} It allows for what some have called indirect as well as direct civil disobedience. And this a definition should do, as there are sometimes strong reasons for not infringing on the law or policy held to be unjust. Instead, one may disobey traffic ordinances or laws of trespass as a way of presenting one's case. Thus, if the government enacts a vague and harsh statute against treason, it would not be appropriate to commit treason as a way of objecting to it, and in any event, the penalty might be far more than one should reasonably be ready to accept. In other cases there is no way to violate the government's policy directly, as when it concerns foreign affairs, or affects another part of the country. A second gloss is that the civilly disobedient act is indeed thought to be contrary to law, at least in the sense that those engaged in it are not simply presenting a test case for a constitutional decision; they are prepared to oppose the statute even if it should be upheld. To be sure, in a constitutional regime, the courts may finally side with the dissenters and declare the law or policy objected to unconstitutional. It often happens, then, that there is some uncertainty as to whether the dissenters' action will be held illegal or not. But this is merely a complicating element. Those who use civil disobedience to protest unjust laws are not prepared to desist should the courts eventually disagree with them, however pleased they might have been with the opposite decision.

19. Here I follow H. A. Bedau's definition of civil disobedience. See his "On Civil Disobedience," Journal of Philosophy, vol. 58 (1961), pp. 653–654. It should be noted that this definition is narrower than the meaning suggested by Thoreau's essay, as I note in the next section. A statement of a similar view is found in Martin Luther King's "Letter from Birmingham City Jail" (1963), reprinted in H. A. Bedau, ed., Civil Disobedience (New York, Pegasus, 1969), pp. 72–79. The theory of civil disobedience in the text tries to set this sort of conception into a wider framework. Some recent writers have also defined civil disobedience more broadly. For example, Howard Zinn, Disobedience and Democracy (New York, Random House, 1968), pp. 119, defines it as "the deliberate, discriminate violation of law for a vital social purpose." I am concerned with a more restricted notion. I do not at all mean to say that only this form of dissent is ever justified in a democratic state.

To be sure, in a constitutional regime, the courts may finally side with the dissenters and declare the law or policy objected to unconstitutional. It often happens, then, that there is some uncertainty as to whether the dissenters' action will be held illegal or not. But this is merely a complicating element. Those who use civil disobedience to protest unjust laws are not prepared to desist should the courts eventually disagree with them, however pleased they might have been with the opposite decision.

19. Here I follow H. A. Bedau's definition of civil disobedience. See his "On Civil Disobedience," Journal of Philosophy, vol. 58 (1961), pp. 635–661. It should be noted that this definition is narrower than the meaning suggested by Thoreau's essay, as I note in the next section. A statement of a similar view is found in Martin Luther King's "Letter from Birmingham City Jail" (1963), reprinted in H. A. Bedau, ed., Civil Disobedience (New York, Pegasus, 1969), pp. 72–89. The theory of civil disobedience in the text tries to set this sort of conception into a wider framework. Some recent writers have also defined civil disobedience more broadly. For example, Howard Zinn, Disobedience and Democracy (New York, Random House, 1968), pp. 119f, defines it as "the deliberate, discriminative violation of law for a vital social purpose." I am concerned with a more restricted notion. I do not at all mean to say that only this form of dissent is ever justified in a democratic state.

Civil disobedience is nonviolent for another reason. It expresses disobedience to law within the limits of fidelity to law, although it is at the outer edge thereof. The law is broken, but fidelity to law is expressed by the public and nonviolent nature of the act, by the willingness to accept the legal consequences of one’s conduct. This fidelity to law helps to establish to the majority that the act is indeed politically conscientious and sincere, and that it is intended to address the public’s sense of justice. To be completely open and nonviolent is to give bond of one’s sincerity, for it is not easy to convince another that one’s acts are conscientious, or even to be sure of this before oneself. No doubt it is possible to imagine a legal system in which conscientious belief that the law is unjust is accepted as a defense for noncompliance. Men of great honesty with full confidence in one another might make such a system work. But as things are, such a scheme would presumably be unstable even in a state of near justice. We must pay a certain price to convince others that our actions have, in our carefully considered view, a sufficient moral basis in the political convictions of the community.

Civil disobedience has been defined so that it falls between legal protest and the raising of test cases on the one side, and conscientious refusal and the various forms of resistance on the other. In this range of possibilities it stands for that form of dissent at the boundary of fidelity to law. Civil disobedience, so understood, is clearly distinct from militant action and obstruction; it is far removed from organized forcible resistance. The militant, for example, is much more deeply opposed to the existing political system. He does not accept it as one which is nearly just or reasonably so; he believes either that it departs widely from its professed principles or that it pursues a mistaken conception of justice altogether. While his action is conscientious in its own terms, he does not appeal to the sense of justice of the majority (or those having effective political power), since he thinks that their sense of justice is erroneous, or else without effect. Instead, he seeks by well-framed militant acts of disruption and resistance, and the like, to attack the prevalent view of justice or to force a movement in the desired direction. Thus the militant may try to evade the penalty, since he is not prepared to accept the legal consequences of his violation of the law; this would not only be to play into the hands of forces that he believes cannot be trusted, but also to express a recognition of the legitimacy of the constitution to which he is opposed. In this sense militant action is not within the bounds of fidelity to law, but represents a more profound opposition to the legal order. The basic structure is thought to be so unjust or else to depart so widely from its own professed ideals that one must try to prepare the way for radical or even revolutionary change. And this is to be done by trying to arouse the public to an awareness of the fundamental reforms that need to be made. Now in certain circumstances militant action and other kinds of resistance are surely justified. I shall not, however, consider these cases. As I have said, my aim here is the limited one of defining a concept of civil disobedience and understanding its role in a nearly just constitutional regime.

22. Those who define civil disobedience more broadly might not accept this description. See, for example, Zinn, Disobedience and Democracy, pp. 27-31, 39, 119ff. Moreover he denies that civil disobedience need be nonviolent. Certainly one does not accept the punishment as right, that is, as deserved for an unjustified act. Rather one is willing to undergo the legal consequences for the sake of fidelity to law, which is a different matter. There is room for latitude here in that the definition allows that the charge may be contested in court, should this prove appropriate. But there comes a point beyond which dissent ceases to be civil disobedience as defined here.
