The Materials Research Science and Engineering Center (MRSEC) and the Center for Hierarchical Manufacturing (CHM) welcome the public to the final presentations of the undergraduate students participating in this summer’s Research Experience for Undergraduates (REU) programs. The students will present the final results of their lab research projects.

Kevin Joerger, Loyola Marymount University
Christian Gentry, University of Arizona
Amiya Quidley, Syracuse University
Jessica Woods, Western New England University
Lauren Clark-Johnson, Mount Holyoke College
Gabriela Rodriguez, New Mexico State University
Emily Dubuc, Western New England University
Matthew Baker, University of Pittsburg
Benjamin Yavitt, Case Western Reserve University
Kyle Vanderwerf, University of Massachusetts Amherst
Callen Brooks, Bowdoin College
Molly Martorella, Oberlin College
Thao Do Vy Le, Hampshire College
Dario Frisardi, University of Massachusetts Amherst
Stuart McKaige, Kent State University
Morgan Opie, University of Massachusetts Amherst

These REU programs are sponsored by the National Science Foundation, the Center for Hierarchical Manufacturing, and the Materials Research Science and Engineering Center.
