

FOOD SCIENCE										
Project #	Title	MSR#	Speed #	Accession	First PI	Second PI		Start	Termination	Memo
MAS00881	Nutrient-Bioavailability...	W-1002		0197789	Decker	Clydesdale		20011001	20080930	
MAS00906	Producing Stable Value-added Fish Oil Emulsions for use in Functional Foods			0201434	Decker	Mclements		20041001	20090930	
MAS00908	Physiology and Control of Foodborne Disease Agents			0201522	Labbe	Shetty		20041001	20090930	
MAS00911	Production, Characterization and Application of Nanostructured Food Antimicrobial Systems			0201502	Weiss			20041001	20090930	
MAS00919	Investigating conditions and mechanisms by which conjugated linoleic acid improves bone mass			0202292	Park	Xiao		20041001	20090930	
MAS00923	Fuels from Biomass: Conversion of Agricultural Wastes to Ethanol by Clostridium phytofermentans			0205636	Leschine	McLandsborough		20051001	20100930	
MAS00932	Engineering Pproperties of foods and food systems			0207524	Peleg			20061001	20110930	
MAS00933	Development of Activated Charcoal to Remove PCR Inhibitors from Complex Food Matrices			0209096	Levin			20061001	20110930	
MAS00936	Biofilm formation of Listeria sp. And Alicyclobacillus sp. In pure and mixed cultures			0209097	McLandsborough			20061001	20110930	
MAS00935	Development of methods to control lipid oxidation, water-holding capacity and texture in muscle foods, especially seafood			0209173	Decker	Hultin		20061001	20110930	
MAS00934	Control of Helicobacter pylori by dietary and bioprocessed soy phenolics			0210650	Shetty			20071001	20120930	
MAS00956	Processing Muscle Foods and Formation of Bioavailable Iron			0214123	Mahoney			20080601	20110930
