Values, Vision, & Mission

We, the Faculty of the School of Nursing, are committed to:

Caring and Collaborative Relationships

- Caring and compassion as the heart of evidence-based nursing practice
- Collaboration with clients, nursing and interdisciplinary peers as essential to enhancing health and healing
- Attending to the needs and input of vulnerable and underserved populations

Leadership

- Nursing's contribution to reducing health disparities and promoting health in a global society
- An environment that enhances the social conscience and professional development of all members of the School of Nursing
- The knowledge that environments are interrelated systems that affect and are affected by nursing practice, culture, and public policy
- Students developing their identity as agents for innovation in the world.

Excellence

- The reciprocal relationships among teaching, scholarship, and engagement
- Encouraging integrity and high moral character in all members of the School of Nursing
- Becoming reflective practitioners to increase the authenticity of our work (Boyer, 1990)

Innovation

- Creative ways of acquiring, managing and sharing knowledge

Diversity

- Striving to design and provide culturally sensitive nursing care in a global society
- Promoting diversity in our school and in the profession

Life Long Learning

- Arts, humanities, and sciences as a foundation for nursing education
- Learning as a dynamic, collaborative process that promotes mutual growth of students and teachers.

Vision

The School of Nursing is a force for innovation, learning and discovery in preparing culturally proficient nurses for leadership in health for a global society.

Mission

To provide an affordable and accessible education to enhance health and healing through nursing leadership in teaching, scholarship, practice and service.
