HEALTH REQUIREMENTS
2014 - 2015

- Tdap – Tetanus, Diphtheria and Pertussis Vaccine (within last 8 years)
- Dates of MMR #1 and MMR #2 – If dates not available, blood titer required for Measles and Rubella, if blood test is negative will require booster vaccinations.
- Positive Mumps Titer (blood test) with lab results
- Hepatitis B Series (3 doses required: Immunization #1; Immunization #2, 30 days later; and 6 months after dose #1 you receive immunization #3). Immunizations must be completed a minimum of 10 weeks prior to the start of the college semester as the Hepatitis B Titer must be drawn 6 to 8 weeks following immunization #3.
- Antibody to Hepatitis B Surface Antigen with lab results (If immunity is not demonstrated or shown by titer, must receive HepB booster immunization and another titer six to eight weeks post booster)
- Varicella (Chicken pox ) Titer (blood test) with lab results
  - Note: This titer is completed even if you have had the Chicken Pox as a child
  - If the blood test is negative, you will need to receive Varicella #1 immunization and Varicella #2 immunization
- 2-Step Tuberculosis – PPD #1 and results
  - PPD #2 and results (must be completed within 3 months of PPD #1)
  - If you receive a Positive PPD, we require a Chest X-ray with the date of the x-ray and the lab results.
- Drug testing is required (the college works with an agency to manage this testing)
- Seasonal Flu Vaccine Required
- Current Physical with date and comments (Must be within last six months).

MANDATORY DRUG TESTING REQUIRED BEGINNING SEPTEMBER 1, 2014

Further information will be shared with you.
Note: Random drug testing can/will occur in many of your clinical facilities.
