Student Learning Objectives

- Develop good communication skills, both oral and written.
- Ability to synthesize material from disparate sources and formulate and analyze complex arguments.
- Learn how to find, read, and understand case law and other material relating to the law.
- Computer literacy and proficiency with online resources.
- Develop personal views, supported by reasoned arguments, concerning the policy issues and values embedded in law.

Assessment tools

- Indirect: in-house developed course evaluations; informal contact between faculty and students; tracking of student success by number of students on Dean’s List and career trajectories after graduation.
