1	Addressing Urban Health Crises																																	1						1	1													**3**
2	Aging Research and Training																										0/1								1/2/3		1	0/1			1												**5**
3	ASSIST Health: Inst. for Personalized Healthcare & Tech.				1																								1								1				1												**4**
4	Biofuels Renewable Energy	1																								1						1			2																		**5**
5	Biology -- Biophysicist																										1																										**1**
6	Biology -- Stem Cell Biologist																										1																										**1**
7	Cellular Engineering	0/1/2																								0/1/2		0/1/2																										**3**
8	Comparative Diaspora and Transnational Studies					1			1		1	1					1				1																						1	1			1								**10**
9	Computational Social Science																												1			1																	1	1				**4**
10	Cyber-security			1															1										1																1				1					**5**
11	Energy Science																											3						1																		**4**
12	Entrepreneurship				?		0/1							0/1					1		1	1																																	**5**
13	Health Care Delivery: Process Improvement				1/2/3																								1/2								1																**4**
14	Heritage Studies									1																												1					1										**3**
15	High Performance Green Computing																								1				2																								**3**
16	Human and Policy Dimensions of Global Env. Change																					1												1												1	1						**4**
17	Human Equations: Compensation and Reparation					1				1																																			1		1						**4**
18	Integrative Biophysics																									1	1	1						1																			**4**
19	Interdisciplinary Educ. in Environmental Sustainability																																	1																			**1**
20	In Vivo Imaging Research	0/1		0/1																						0/1	0/1	0/1								0/1																	**3**
21	Judgment and Decision-Making Under Uncertainty																												1						2										1							**4**
22	Language, Experimentation, and Computation												2																2						2																	**6**
23	Millimeter Wave and Terahertz Imaging			1																					1																												**2**
24	Multi-Messenger Early Universe																								1										1																	**2**
25	Music Entrepreneurship													1										1																														**2**
26	Neuro-Developmental Disabilities																																																			1		**1**
27	Nursing																																						3														**3**
28	Soft Matter	1																												1				1																	**3**
29	Sustainable Structural Infrastructure		1																																																	**1**
30	Systems and Computational Biology																									1			1			1	1																			**4**
31	Transnational Latin Am., Caribbean, and Latin@ Studies					1				1		1					1																										1	1			1							**8**
32	Global Climate Change Ecology																																	2		2																**4**
33	Climate Science and Hydroclimatology		1/2																											1/2																						**3**
	TOTAL	2-5	2-3	2-3	2-5	3	0-1	0	1	3	1	2	2	1-2	0	0	2	0	2	0	2	1	1	1	3	3-6	3-5	4-7	10-11	1	1/2	2	2	4	4	4	6-8	0-1	6	0-1	0	0	5	4	2	3	2	3	2	1	1	0	0	**119**

Note: Some proposals suggested options as to where faculty hires would be allocated. In such cases, the options are shown and separated by a slash mark (e.g., 1/2). Column totals show resulting ranges; row totals (and the grand total) show the total number of positions requested.
