INTRODUCTION

REPORTING ADMISSIONS AND ENROLLMENT

Information for this report is drawn from the computer files maintained by the Undergraduate and Graduate Admissions Offices and Registrars. These are working files, built from the daily transactions that represent the campus's official actions with respect to student admissions and enrollment. These "primary" data are captured, processed, and verified before they are put into table form for publication.

Admissions and enrollment activity is ongoing, but a "snapshot" of the data is taken as of the end of the fourteenth calendar day of each semester. It typically takes three or four days for all transactions "as of" this census date to be posted to the computer files.

We report enrollment activity at three levels. The school or college is the basic level of analysis. Within this, activity is shown by department or program, and within department or program by discipline or major, where appropriate (thus, enrollment of Hispanic Literatures and Linguistics majors is shown within the Spanish and Portuguese Department within the College of Humanities and Fine Arts). Admissions activity is reported only at the school or college level, the level at which most undergraduates are admitted. Graduate admissions at the department or program level are reported in the Graduate School Factbook, published by the Graduate School.

Beginning Fall 1995, calculation of undergraduate enrollment data for student majors and instructed students are based upon students' primary and secondary majors. Previous reports examined students' primary major only. Reporting conventions for students with multiple majors are as follows: (1) Headcount student majors are computed using all declared majors, (2) FTE student majors are distributed to all major programs, and (3) instructional credit for majors is based on students with any declared major. At the school and college level the number of primary and secondary majors is reported. The number of primary majors is comparable to headcount student majors reported in previous semesters. There is no change in the way graduate enrollment is reported. See Enrollment Definitions for a more detailed explanation.

ENROLLMENT DEFINITIONS

Headcount Student Major is the actual count of individual students who have selected a given major. Every student is assigned a “major”, even though it may be only an administrative classification (e.g., “non-degree” or “undeclared”).

At the undergraduate level, the count of student majors includes students’ declared **primary** and **secondary** majors. In the case of multiple majors, the enrollment is attributed to both departments. For example, if a student declares a primary major in Journalism and a secondary major in Political Science, both departments in their respective colleges receive credit for the enrollment. In Spring 2003, there were 1,166 students with more than one major.

Full-Time Equivalent (FTE) Student Majors show how many headcount students there would be if all students took a “full” credit load (15 credits for undergraduates; 9 for graduate students, effective Spring 1992). We look at the credits generated by students within each major regardless of where the courses are offered and then divide by 15 or 9, as appropriate. For undergraduate FTE student majors, the number of credits are distributed based on the number of declared majors. As in the previous example, half of the student’s total credits would be assigned to Journalism, and half would be assigned to Political Science. Prior to Fall 1995, all credits were attributed to Journalism.

FTE Instructed Students is our measure of instruction offered and consumed, regardless of the majors of the students taught. We look at the credits generated in the courses *offered* by each discipline, calculate full-time equivalency, and then distribute instruction according to “majors” and “non-majors.” FTE instructed “majors” are defined as students with **any** declared major within the department or program offering the course; instructional credits for “majors” are assigned when the student taking the course is also a major in the department offering the course. All other students, including those without a declared major or pre-majors, are defined as “non-majors.” In the case of the student with majors in Journalism and Political Science, FTE’s generated in Journalism and Political Science would be classified as instruction to **majors** in the respective departments. Previously, only Journalism would have been credited with instruction in the major.

Unlike FTE Student Majors, calculation of FTE Instructed Students depends on the *level* of the course being taken and the *level* of the student taking the course. For undergraduate courses (those numbered 100-499) we always divide by 15, whether the student is undergraduate or graduate. Similarly, for graduate courses (those numbered 600-899) we always divide by 9 (prior to Spring 1992, the divisor was 12). For courses numbered 500-599, however, we look to see what kind of student is taking the course: if undergraduate, we divide by 15; if graduate, we divide by 9.

DATA COMPARABILITY

Admissions and enrollment data presented in this report are based on the current organizational structure of academic units and departments. During the course of any given semester, organizational, departmental or programmatic changes may occur. Therefore, school or college totals may not be directly comparable to previous semesters due to the consolidation, reassignment, or suspension of selected academic programs. In many cases, these changes (e.g., program name change, addition or consolidation of undergraduate majors) do not affect the numbers at the school or college level.

Numbers for this report may not be directly comparable to prior semesters as a result of organizational changes. In addition, enrollment numbers are not directly comparable to semesters before Fall 1995 due to the inclusion of students with multiple majors.

The following changes are in effect for Spring 2003:

- **Non state-supported** (i.e. programs administered by the Division of Continuing Education) **undergraduate** and **graduate** majors and instruction are reported exclusively in the Division of Continuing Education. Previous to Spring 2003, graduate programs administered by the Division of Continuing Education were reported with state-supported programs.
- The graduate major in Animal Sciences was renamed Animal Biotechnology and Biomedical Sciences.
- The department of Hotel, Restaurant, and Travel Administration, in the School of Management, and all majors were renamed Hospitality and Tourism Management.
- The department of Sport Studies and all Sport Studies majors have been merged into one department and major, Sports Management, in the School of Management.
- Students on exchange from other institutions are now considered nonmatriculating students. Previously, these students had been assigned a class year.

* Includes students enrolled in at least one credit-bearing course at the end of the fourteenth calendar day of the semester.
 † The percent of applicants who were accepted (including either the preferred or alternate major at the undergraduate level).
 ‡ The percent of accepted students who enrolled (including either the preferred or alternate major at the undergraduate level).
 †† Certificate of Advanced Graduate Study (School of Education only).

Note 1. Information is reported according to the School or College affiliation of the major to which the student **applied** (at the undergraduate level, the preferred major).
 Note 2. Some academic units have restricted the number of entering students, and many applicants are offered an alternative major. In the majority of cases, the alternate acceptance and enrollment figures do not represent acceptance or enrollment into that school or college, but acceptance or enrollment as an "Undeclared" major.
 Note 3. Graduate students applying to programs administered by the Division of Continuing Education are included in graduate admissions numbers.

Note 1. **Majors.** Students with any declared primary and secondary majors within the department or program offering a course. All other students, including those without a declared major or premajors, are defined as "non-majors."
 Note 2. Effective Spring Semester 2003, **non-state supported undergraduate** and **graduate** instruction is reported exclusively in the Division of Continuing Education. Data from previous semesters are not comparable for non state-supported graduate programs administered through the Division of Continuing Education.

† Includes Certificate of Advanced Graduate Study (C.A.G.S.) in the School of Education.

Note 1. **Student Majors:** A student with a declared major within the school or college. At the undergraduate level, data reported represent a duplicated count of student majors (primary and secondary majors). FTE student majors are distributed proportionally across major programs. Therefore, numbers are not comparable to semesters prior to Fall 1995, which reported data for primary majors only. See Enrollment Definitions for additional detail.

Note 2. **Active:** Matriculating graduate students registered for courses or dissertation credits.

Note 3. **Program Fee (PF):** Matriculating graduate students assigned three credits while on Program Fee (no course).

Note 4. **Primary Majors:** The actual count of undergraduate students whose primary declared major is in the school or college

Note 5. **Secondary Majors:** The actual count of undergraduate students whose secondary or tertiary declared major is in the school or college

Note 6. All data reflect the current organizational structure.

Note 7. Excludes undergraduate students on exchange at other institutions.

Note 8. Effective Spring Semester 2003, **non-state supported undergraduate** and **graduate** majors are reported exclusively in the Division of Continuing Education. Data from previous semesters are not comparable for non state-supported graduate programs administered through the Division of Continuing Education.

Definitions and Notes

Majors: Students with a declared primary, secondary major or pre-major within the department or program offering a course. All other students are defined as "non-majors".

CE: Non-state supported programs administered through the Division of Continuing Education. Effective Fall 2003, undergraduate and graduate enrollments are reported with school/college and department totals.

Secondary Majors	10	55	83	174	-	322	-	-	-	-	-	-	-	-	-	322	161.3	-	161.3

Note 1. **Student Majors:** A student with a declared major within the department or program. At the undergraduate level, data reported represent a duplicated count of student majors (primary and secondary majors). FTE student majors are distributed proportionally across major programs. Therefore, numbers are not comparable to semesters prior to Spring 1996, which reported data for primary majors only. See Enrollment Definitions for additional details.

Note 2. **Active:** Matriculating graduate students registered for courses or dissertation credits.

Note 3. **Program Fee (PF):** Matriculating graduate students assigned three credits while on Program Fee (no course).

Note 4. **Primary Majors:** The actual count of undergraduate students whose primary declared major is in the department or program.

Note 5. **Secondary Majors:** The actual count of undergraduate students whose secondary or tertiary declared major is in the department or program.

Note 6. All data reflect the current organizational structure.

Note 7. Excludes undergraduate students on exchange at other institutions.

Note 8. Effective Spring Semester 2003, **non-state supported undergraduate** and **graduate** majors are reported exclusively in the Division of Continuing Education. Data from previous semesters are not comparable for non state-supported graduate programs administered through the Division of Continuing Education.

Definitions and Notes

Majors: Students with a declared primary, secondary major or pre-major within the department or program offering a course. All other students are defined as "non-majors".

CE: Non-state supported programs administered through the Division of Continuing Education. Effective Fall 2003, undergraduate and graduate enrollments are reported with school/college and department totals.

- Note 1. **Student Majors:** A student with a declared major within the department or program. At the undergraduate level, data reported represent a duplicated count of student majors (primary and secondary majors). FTE student majors are distributed proportionally across major programs. Therefore, numbers are not comparable to semesters prior to Spring 1996, which reported data for primary majors only. See Enrollment Definitions for additional detail.
- Note 2. **Active:** Matriculating graduate students registered for courses or dissertation credits.
- Note 3. **Program Fee (PF):** Matriculating graduate students assigned three credits while on Program Fee (no course).
- Note 4. **Primary Majors:** The actual count of undergraduate students whose primary declared major is in the department or program.
- Note 5. **Secondary Majors:** The actual count of undergraduate students whose secondary or tertiary declared major is in the department or program.
- Note 6. Excludes undergraduate students on exchange at other institutions.
- Note 7. All data reflect the current organizational structure.
- Note 8. Effective Spring Semester 2003, **non-state supported undergraduate and graduate** majors are reported exclusively in the Division of Continuing Education. Data from previous semesters are not comparable for non state-supported graduate programs administered through the Division of Continuing Education.

Definitions and Notes

Majors: Students with a declared primary, secondary major or pre-major within the department or program offering a course. All other students are defined as "non-majors".

Exception: Declared undergraduate "Engineering" majors are treated as majors in all courses offered within the College. Undergraduate students with any declared major within the College are treated as majors in "Engineering" courses.

CE: Non-state supported programs administered through the Division of Continuing Education. Effective Fall 2003, undergraduate and graduate enrollments are reported with school/college and department totals.

Definitions and Notes

Majors: Students with a declared primary, secondary major or pre-major within the department or program offering a course. All other students are defined as "non-majors".

CE: Non-state supported programs administered through the Division of Continuing Education. Effective Fall 2003, undergraduate and graduate enrollments are reported with school/college and department totals.

* Graduate Non-Degree students have no degree level. They appear in this table aggregated under Graduate Total.

† Does not include enrollment in the University Without Walls program administered by the Division of Continuing Education. Refer to Table 2, Division of Continuing Education.

‡ Does not include a significant portion of credits awarded for Prior Learning (data not available as of enrollment census date). In Spring 2002, 168 Prior Learning credits were awarded, yielding an additional 11.2 FTE Instructed Students.

Note 1. **Student Majors:** A student with a declared major within the department or program. At the undergraduate level, data reported represent a duplicated count of student majors (primary and secondary majors). FTE student majors are distributed proportionally across major programs. Therefore, numbers are not comparable to semesters prior to Spring 1996, which reported data for primary majors only. See Enrollment Definitions for additional detail.

Note 2. **Active:** Matriculating graduate students registered for courses or dissertation credits.

Note 3. **Program Fee (PF):** Matriculating graduate students assigned three credits while on Program Fee (no course).

Note 4. **Primary Majors:** The actual count of undergraduate students whose primary declared major is in the department or program.

Note 5. **Secondary Majors:** The actual count of undergraduate students whose secondary or tertiary declared major is in the department or program.

Note 6. Excludes undergraduate students on exchange at other institutions.

Note 7. Exchange students from other institutions are classified as non-matriculating students.

Note 8. All data reflect the current organizational structure.

Note 9. Effective Spring Semester 2003, **non-state supported undergraduate** and **graduate** majors are reported exclusively in the Division of Continuing Education. Data from previous semesters are not comparable for non state-supported graduate programs administered through the Division of Continuing Education.
