*Number of students for whom these data were available.

Note A. Effective Fall 1996, the College Board began reporting SAT scores on a new set of scales based on a larger, more diversified reference group from the 1990's. Recentering reestablishes both the average verbal and math scores near 500, the midpoint of the 200 to 800 scoring scale.

This allows verbal and math scores to be compared directly as a measure of the two kinds of skills.

Note B. 25th - 75th percentile represents the range of scores for the middle 50% of students.

Note C. Effective Fall 1997 High School GPA is a weighted average (Honors and Advanced Placement courses are given extra credit), and therefore is not comparable to previous years.

Note D. The numbers pertain to students who were processed through the Office of Undergraduate Admissions, submitted SAT scores, and were enrolled in a credit-bearing course at the end of the 14th calendar day of the semester.
