\*Minor programs allow the student to explore and attain some competence in a second area of study without fulfilling the full range of requirements of the major. At least 15 credits in a coherent set of courses in a particular discipline, department or program are required.

Note A. Reflects current organizational structure of academic programs.

Note B. Minor programs are not offered by the College of Engineering and the Schools of Education and Management.

Note C. Effective August, 2000
