BIDDERS' QUESTIONS:

Q1. Could you please provide the seismic design category for this project?

A1. The seismic design category of the buildings is unknown at this time. It is not anticipated that this information would be required for or affect the scope of work for this project.

Q2. Please provide existing hydrant flow test data for or around each site.

A2. The following data is provided for informational purposes only. It is not anticipated that this information would be required for or affect the scope of work for this project.

Knowlton: Date: 2009
Static: 95 psi
Residual: 86 psi
Flow: 1,455 gpm

Brooks: Date: 2009
Static: 75 psi
Residual: 65 psi
Flow: 1,250 gpm

Q3. For the access into the ceiling in the Knowlton Lounge to install the new sprinkler connection and head, is there any hazardous materials present?

A3. The University has sampled this ceiling material and it is currently at the lab for testing. The results of the testing will not be back in time for this Addendum. Therefore, the Bidder shall assume for his/her bid that the testing proves negative and there is NOT any hazardous material associated with this work area. If the tests prove positive, a Change Order will be directed for this removal IF the University does not remove the hazardous material themselves.
