QUESTIONS AND ANSWERS

QUESTION #1 - What are the dimensions of the existing room?

Answer: 11 x 20 x 8

QUESTION #2 - How far is the remote run? We would highly suggest that you replace the existing line set, changing refrigerants and the oil can cause many problems, the expansion valves can clog, develop leaks etc.

Answer: Recommended to visit the site to look at. Contact Jason Burbank at 413-531-4080 or Andy Thibault at 413-992-7933 to arrange the visit

QUESTION #3 - Our standard control panel is a PLC with a touchscreen interface, will this be acceptable in lieu of the microprocessor?
Answer: Yes.

**QUESTION #4** - Can we use our non-union labor as long as we pay prevailing rate?
Answer: Yes.

**QUESTION #5** - Is the condenser water cooled or air cooled?
Answer: Water cooled

**QUESTION #6** - What voltages are available for the condensing unit and control panel as typically required is 208V/ 3 phase with a neutral for the control panel, can we use either 208-230V/ 3 phase or 460V/ 3 phase for the condensing unit?
Answer: The control panel is 208V single phase and the condensing unit is 208V 3 phase.
