Mobile ID Production Stations
RFB AA09-JM-3281
Addendum #1

Below are changes to the specifications contained in RFB AA09-JM-3281 Mobile ID Production Stations. Note that vendor must comply with any changes listed in this addendum or their bid will be rejected.

1. The bid opening date is hereby changed to April 29, 2009 at 2:00pm. Same location.
2. Section 1: Computer Specifications – change the “500 GB or larger hard drive” to read “250 GB or larger hard drive” – all other specifications remain the same.
3. Add the following sections to the RFB:

Section 7: Other Costs, Services and/or Equipment • Specify any set up installation, and/or migration costs • Specify any training costs • Specify any additional equipment or services that would be needed to complete the implementation of this equipment – e.g. installation of Blackboard/DataCard integration software.

Section 8: Timetable

- Specify the normal amount of time it would take from purchase order reception to implementation of the mobile id stations.
- Indicate whether or not there is an accelerated installation process, and if so, if there are additional costs associated with it.
