ADDENDUM # 3

Project: UMAPP12-054

Title: Robsham Visitors Center Parking Lot- Develop, Design & Install Solar Photovoltaic Array

The attention of bidders submitting proposals for the above subject project is called to the following addendum to the specifications and drawings. The items set forth herein, whether of omission, addition, substitution, or clarifications are all to be included in and form a part of the proposals submitted.

IMPORTANT ACKNOWLEDGEMENT OF RECEIPT OF THIS ADDENDUM (3) **MUST** BE REFERENCED IN YOUR BID SUBMITTAL ON THE ADDENDUM ACKNOWLEDGEMENT LINE OF THE REQUEST FOR BID COVER SHEET.

- Item #1: Reference **PART FOUR SPECIFICATIONS, 4.0 GENERAL REQUIREMENTS, 4.1 CONTRACTOR REQUIREMENTS, 4.1-1 QUALIFICATIONS**, Paragraph A., Page TS-3, delete in its entirety, and replace with the following:
- “A. Each Bidder shall prove proficiency in all types of work specified in this document, by demonstrating that they have successfully completed five photovoltaic projects valued at \$500,000 or more. The Bidder shall submit with their bid documentation in the form of correspondence and other evidence testifying to the proficiency and shall prove that they can fulfill all phases of the work required under this contract.”
- Item #2: Reference the advertisement in The Republican, October 26, 2011: Change the Bid Opening date from November 30, 2011 to December 14, 2011. Time & Place to remain the same.
- Item #3: Reference the notice in the Central Register, October 26, 2011, and change the project General Bid Deadline from November 30, 2011 to December 14, 2011. Time & Place to remain the same.
- Item #4: Reference Invitation to Bid and Bid Form, Section 1.1, Invitation to Bid, and change date from November 30, 2011 to December 14, 2011. Time & Place to remain the same.
- Item #5: Clarification of use: The primary object of this project is to develop, design and install a photo voltaic installation (per Section B under Scope of Services on page TS-2) in order to generate sufficient solar power to achieve 65kW of electricity . The parking canopy design is to be incorporated into the design to allow continued use of the existing parking area below the canopy supporting the PV panels. This project is not a project to build a parking structure.
