

Pat Vittum, Ph.D., Author of *Turfgrass Insects of the United States and Canada*, to speak at the Southeast Regional Conference!

Pat Vittum, Ph.D., a foremost authority on turf insects, will be a featured speaker at the Southeast Regional Conference. Dr. Vittum teaches courses on pesticides in the environment, turf insects and integrated turf management. Don't miss an opportunity to learn from this celebrated author and riveting speaker!

Participants will learn...

Insecticides: Modes of Action and Resistance Management (Morning General Session)

- Adding Acelepryn, a reduced-risk, low toxicity insecticide, into your management program
- Insect nervous systems and insecticide modes of action
- What happens when an insect population develops resistance
- Management strategies to reduce resistance

Golf Course Insects (Afternoon Session)

- How to manage golf course insects
- Review of insecticides currently on the market
- Proper timing of applications

Southeast Regional Conference February 23-24, 2010 Holiday Inn, Suffern, NY
