

RAP STUDENTS SAY:

RAP Gen Ed courses support a SMOOTH TRANSITION to college life:

<i>I like that I am getting involved and learning about resources and information on campus - like the LRC</i>	<i>I feel very connected to my professor and the other students in the class.</i>
<i>The instructor is very energetic and enthusiastic about the subject being taught and helping the students learn about and participate in various activities on campus.</i>	<i>I love the fact that the class is so small for an introductory class because that helps you understand the subject matter better.</i>
<i>I love the community experience and having friends nearby to help me, and bonding over sharing the same class.</i>	<i>My RAP experience made me feel like I had a second, extended family upon arriving on campus.</i>
<i>RAP gave me a chance to broaden my academic and social horizons.</i>	<i>The RAP experience is straight up incredible. It makes freshman year such an easy transition.</i>

RAP Gen Ed courses prepare students for SUCCESS IN COLLEGE and beyond:

<i>I like the skills that we learn. They don't just have applications to the class. They can be used for every class!</i>	<i>I like the idea of working together in groups to analyze and find solutions for real problems on campus.</i>
<i>I like the thought-provoking issues that are presented in class and how they relate to aspects of my life and society.</i>	<i>I like how our instructor is focused on actually teaching us information that will be useful about life- not just useful for an exam.</i>
<i>My RAP course makes me look at the world differently.</i>	<i>The RAP course interconnects to other courses in ways I didn't expect.</i>

RAP students form STRONG CONNECTIONS with their Gen Ed course instructors:

<i>We have a great instructor who keeps everyone engaged and makes sure to help us feel independent and intelligent.</i>	<i>I really enjoy how she engages our class on important and interesting topics. We are able to speak our true opinions and be ourselves.</i>
<i>Having a passionate teacher really makes the learning so much more fun and interesting! Class discussion feels more like a conversation because it's not forced.</i>	<i>I love the enthusiasm that my instructor expresses for the subject. He makes the class interesting and knows how to relate to us.</i>
<i>She asks provocative questions and shows very good materials in class to support the discussion.</i>	<i>The instructor is very clear and direct with what he expects and is always willing to help students.</i>

The RAP Gen Ed classroom environment promotes SATISFACTION & ACHIEVEMENT:

<i>The environment of the RAP class was wonderful. I felt really comfortable. I could share my ideas and not feel judged by the professor or the students in the class.</i>	<i>We are all so comfortable with each other and have intriguing discussions. We really value each other's opinions and there is an open-minded environment.</i>
<i>The structure of the class allows for meaningful discussion and makes you think critically and question your own beliefs, while everyone is respectful to each other.</i>	<i>What I enjoy most is the small classroom environment. It's nice to have a professor who knows each student by name and is able to recognize when students don't fully comprehend material.</i>
<i>It gives me an opportunity to be able to meet with people on my floor, in my major, who share similar interests - we work together and expand our learning horizons.</i>	<i>I love the RAP Gen Ed course because a lot of students in my class also live on my floor, so it is easy to work together and get help from one another.</i>
