MARCH IS WOMEN’S HISTORY MONTH

In Swaziland, any **woman** who wears pants faces a possible punishment of having the pants ripped off her and torn to pieces by soldiers.

In Guadalajara, Mexico, **women** who work for the government may not wear miniskirts or any other “provocative” garment during office hours.

In Turkey, all married **women** must get their husband’s permission if they wish to have job, they must live wherever the husband wishes to reside, and they must forfeit all jointly held assets upon divorce from her husband.  
**(Repealed January 1, 2002)**

In England, men can donate sperm but **women** can’t donate eggs.

## **BACK TO THE 80’S...IN THE JUNGLE:**

That’s right. You read correctly. The official theme for the 2005 Annual Orchard Hill Bowl Weekend is “Back to the 80’s...in the Jungle.” Since the results were so close, we called it a tie and combined two themes. This way, everyone wins, and we’ll have a really “interesting” and “memorable” Bowl Weekend.

## **DONATE YOUR “STUFF” TO OHAG:**

Take a trash bag and fill it with stuff that is just taking up space in your room and bring that trash bag down to the OHAG office during office hours. Going home for Spring Break? Bring back all your junk and donate that too. All it’s doing is taking up space anyway. Are you artistically talented? Donate drawings, paintings, bracelets, anything you can make, so that we can sell that too. **HELP UP RAISE \$\$ FOR BOWL WEEK-END!** Everything that doesn’t get sold will be donated to the **\*\*Salvation Army\*\***

## **RIDDLE OF THE WEEK: FREE TSHIRT TO THE WINNER:**

One day two mathematicians, Igor and Sven, meet in the street. "How are you? How are your sons?" asks Igor. "You have three sons as I remember, don't you? But I have forgotten their ages." "Yes, I do have three sons," replies Sven. "The product of their ages is equal to 36." Looking around and then pointing to a nearby house, Sven says, "The sum of their ages is equal to the number of windows in the building over there." Igor thinks for a minute and then responds, "Listen, Sven, I cannot find the ages of your sons." "Oh, I am very sorry", says Sven; "I forgot to tell you that my oldest son has red hair." Now Igor is able to find the ages of the brothers. Can you do it?

**PHOTO COPIES ARE NOW FIVE CENTS PER COPY AND TEN CENTS PER COPY IF YOU WANT COLORED PAPER.**
