

**University of Massachusetts Amherst
School of Public Health and Health Sciences**

**Assistant Professor in Environmental Health Science
Department of Public Health
Full-time (9-month) Tenure Track Positions**

The University of Massachusetts Amherst, School of Public Health and Health Sciences (www.umass.edu/sphhs/), Department of Public Health is seeking applicants for 2 tenure track state funded positions at the Assistant Professor level in the Division of Environmental Health Sciences (www.umass.edu/sphhs/ehs/index.html).

Position: The successful applicants will join a growing graduate program and faculty in Environmental Health Sciences. Current areas of faculty research in the program include human exposure assessment, dose-response modeling, hormesis, health effects and assessment/remediation of chemical contamination in soils and sediments, and the health effects of bioaerosol exposures.

Principal responsibilities will include developing and teaching graduate and/or undergraduate courses in environmental health sciences, advising graduate students enrolled in MS, MPH and PhD programs, University service, and scholarly research. Candidates will be expected to develop their own areas of research specialization to complement the existing program, obtain competitive research funding, and engage in collaborative research with faculty from the Department of Public Health, the School of Public Health and Health Sciences, other departments on campus, the University's Medical School, and Baystate Medical Center.

The University of Massachusetts Amherst is located in the scenic Pioneer Valley of Western Massachusetts, which is home to five colleges (Amherst College, Hampshire College, Mount Holyoke College, Smith College, and UMass Amherst) and has easy access to several major metropolitan areas.

Qualifications: Successful candidates for this position must have a doctorate in environmental health sciences, public health or a related field, evidence of independent and collaborative research potential, demonstrated interest and ability in teaching at the graduate and undergraduate levels, and a record of peer reviewed publications commensurate with experience and rank. The successful candidates will complement existing expertise within the Environmental Health Sciences concentration. Applicants with research interests in any area of environmental health will be considered. The School of Public Health and Health Sciences is committed to increasing the number of minorities and women on its faculty and welcomes applications from such candidates.

Salary/Benefits: The University offers a competitive salary with an attractive benefits package.

Applications: A start date on (or before) September, 1, 2010 is anticipated. The deadline for applications is October 26, 2009 and review of applications will begin immediately thereafter. Interested applicants should send their curriculum vitae, a statement of research and teaching interests, and the names of three references, preferably by email, to: Extended Search, Dr. Christine A. Rogers, Division Director & Search Committee Chair, Environmental Health Sciences, University of Massachusetts at Amherst, 637 N Pleasant St., Morrill 1 N239A, Amherst, MA 01003-9298, 413-545-3051, carogers@schoolph.umass.edu. The University of Massachusetts is an Affirmative Action/Equal Opportunity Employer.
