What are the goals of:

- the NSF requirement?

- More generally, ethics education in science and engineering?
Goals:
1) Stimulating the Moral Imagination
2) Recognizing Ethical Issues
3) Eliciting a Sense of Obligation
4) Developing Analytical Skills
5) Tolerating Disagreement and Ambiguity

• Hastings Center Report
Some Tensions and Issues in Teaching Ethics

- Role of ethical theory
- Use of cases
- Focus on micro-macro
- Format – course, informal, etc
- Who should teach
- Online - Offline
Research is a social endeavor involving social values, processes, relationships, and institutions.
