A new day is dawning across Massachusetts in support of affordable, accessible, well-funded, more democratic public higher education. Join PHE-NOM at this year's Summit on October 26, 2007 at Framingham State College—where you can:

- Help elaborate an agenda for public higher education in Massachusetts.
- Hear well-known and provocative speakers discuss how to make our schools more affordable *and* better funded.
- Caucus with concerned students, staff, and faculty from around the state to elaborate your priorities.

Be part of the new day for Massachusetts higher education!
