Sample online journalism courses

Here is a list of online journalism courses offered by UMass Amherst in the past three years. This will give you an idea of the types of courses you would have the opportunity to choose from. As with all colleges and universities, courses come and go, and this list is subject to change.

Depending on how you craft your concentration in journalism, there may be courses offered through other academic departments you’ll want to take. For example, if you want to build a concentration in journalism, media and culture, you could add communication courses. Want to study international journalism? Add some courses focused on global issues. Or maybe you have past credits you can bring into the mix. The choice is yours. Review our full list of courses to get a sense of what might be possible for you.
