

A&F WEB APPLICATIONS

Browser and Platform Requirements

The tables below indicate the browser and platforms versions that are compatible with the **PeopleSoft**, **Summit** and **Buyways** web applications.

Site Requirements

Versions not listed below may or may not work fully and are not supported by A&F Systems.

Operating System	
Windows (32-bit & 64-bit)	Vista, 7, 8
Linux x86	RedHat 5+
Apple Mac OS X	10.4+

Web Browser	
Internet Explorer	7.x, 8.x, 9.x, 10.x
Firefox	3.5+, 6+, 13+
Chrome	19+
Safari	4.x, 5.x

Supporting Software	
Java	6.x, 7.x
Adobe Reader	6+
MS Office for Windows	2003+
MS Office for Mac	2004+

Browser Settings

While browsers have different panels for setting their security options, the following settings are generally required:

1. JavaScript must be enabled
2. Cookies must be enabled
3. https://*.umassadmin.net and https://*.umasscs.net must be added as trusted sites and as pop-up blocker exceptions (varies by browser).
4. In some cases, the Java security level must be set to medium or have the sites in (3) added as exceptions.
