INFO SESSION
Why Do I Need a LinkedIn Profile?

- Social professional networks are the #1 source of quality hires followed by internet job boards and employee referrals.
- LinkedIn is more popular than any other tool for building and maintaining networks.
- Percentage of recruiters that use LinkedIn to vet candidates: 94%
- A LinkedIn is meant to be an extended resume: You should have the link for your LinkedIn on your resume and business cards.
Starting at the Top

- Cover photo: change it to something meaningful to you and make sure it’s eye-catching!
- Personal photo: NO SELFIES! High-res, nice lighting, business dress, no sunglasses or religious headgear.
- Headline: three options
- Name: Full name
- Title: What is your current job title?
- Summary: A written down version of your elevator speech!
- Upload your most recent resume!
Experience & Education

- Use your specific title.
- Try to have the organization or company’s icon in the box.
- Don’t have the same descriptions that are on your resume! Expand and add!
- Be really specific in your education. If you’re a part of Isenberg or the Honors College, put that!
- Include activities and societies but don’t include things that were a “part” of but didn’t actually attend.

What is the most important aspect of LinkedIn?

*Building connections!*
When Attempting to Connect with People...

- Add a polite note and ask to connect! Don’t just send an invitation without explaining your purpose.

Add a note to your invitation

LinkedIn members are more likely to accept invitations that include a personal note.

Hello! My name is Sam Minuteman and I am a Bachelor of Science in Communication candidate at UMass Amherst. I saw that you do some amazing work in this field, and I am looking into a similar trajectory of work upon graduation. Would you be willing to connect with me? Thank you and take care!
Networking through Companies

- Click on the search bar at the top of the page, then search a particular company you have in mind.
  - Search for high-profile companies in your field and follow them, while you’re at it!
- If you click on the company, you can see people from UMass and other past experiences that you’ve had who were hired at that company.
- Don’t be afraid to reach out to people, not only to connect, but to also ask questions about the company and how to be a successful candidate.
Networking through Communities and Groups

**Communities**
- A new feature of LinkedIn!
- Follow hashtags that interest you and are relevant to your career and livelihood.

**Groups**
- Can be searched for under “Content”
