For Humanities & Fine Arts Declared Major and Exploratory Track Students

If you wish to take more than the maximum nineteen-credit load in a Fall or Spring semester, or seven credits in a summer session, please fill in both sides of this form, including a short statement explaining why the overload is both desirable and possible.

Please note that even if your request is approved, **it will NOT be activated on the online registration system just prior to the start of the semester**, so you will **NOT** be able to add the additional course(s) immediately.
