In partnership with The Anthropocene Lab The School of Earth and Sustainability and the Environmental Humanities Initiative

"Our Shared Futures: The Language of Sustainability"

FRIDAY NOVEMBER 1ST

This event is a community workshop with moments for learning, discussion, and reflection. Together, we explore the language of sustainability and consider what a Sustainability Charter means for SES operations, its partners, and our lives as scholars and students. This event builds upon discussions and ideas generated over the last decade here at UMass.

Your engagement matters a great deal to the community as we work towards finding the right words to guide our research, education, and engagement. The event will be followed by drinks and snacks in the lobby of the Design Building.
