

Your Pay Stub

On May 6, 2005, your pay stub will be enhanced and have more information about your pay. Read on to learn more about the changes.

Your new pay stub opens differently. To open it, tear off the two perforated sections on the sides and then slide your finger under the flap where indicated by the arrows.

DO NOT RIP the third side or your check may be damaged!

1 Personal and job information has been reorganized to be easier to find.

2 Earnings and deduction descriptions are more descriptive and easier to understand.

3 Earnings are broken out by pay rate – a separate line is printed for each rate.

3a Year-to-date totals are only printed once if you have multiple pay rates for the same type of earnings. For example : You get paid \$2.00 per hour for some of your shift work and \$2.50 and \$4.50 per hour for the rest. The year-to-date total for all your shift pay is printed only once on the first line of shift pay.

4 Deductions are now broken out so that all before-tax deductions are grouped and totaled. After-tax deductions are grouped and totaled in their own box.

5 Available hours for vacation, sick, etc. have been consolidated and moved.

6 Year-to-date taxable gross is now available.

7 For direct deposits, the last 3 digits of the account number into which money was deposited are printed on the advice.

Contact Payroll Services 545-0287, 545-3761 or 545-0391 if you have any questions about the new pay stub or if you would like to sign up for direct deposit
