

Minitab Express - Windows

Minitab Software Download Link

<http://fs1.minitab.com/prodinstalls/minitabexpress/minitabexpress1/1.5.0.0/win/multi-user/minitabexpress1.5.0.0multi-usersetup.exe>

How to install using the enterprise license file:

1. Save the attached license file (minitab.lic) to the same folder as the Minitab Express installer and double-click the Minitab Express installer

How to replace the enterprise license file:

1. Copy the attached license file to the directory where Minitab is installed (Default: C:\Program Files(x86)\Minitab)
2. Launch Minitab Express. When prompted to enter the Specify the License Server System or Specify the License File a file, select Specify the License File.
3. Browse to and select minitab.lic. Click Open.
4. Click OK to launch Minitab.

Note: If the end-user has previously accessed a network License Manager for a license, Minitab Express will automatically look to the original License Manager before attempting to use the enterprise license file.

For more advanced installation methods or to deploy to multiple computers, please see the Minitab Express Install Guide online at: <http://www.minitab.com/support/documentation/>
