Ways to Connect:

eduroam

eduroam is the encrypted wireless network at UMass Amherst. Use this network for laptops, smartphones, and tablets. For info about setting up eduroam, visit umass.edu/it/get-connected.

UMASS-DEVICES

Use this network for select streaming devices & gaming consoles (e.g. Apple TV, Xbox, PlayStation, Switch). For info about setting up UMASS-DEVICES, visit umass.edu/it/get-connected.

UMASS

This unencrypted network can be used for Guest Wireless & event users, and for configuring eduroam if necessary.

Visit umass.edu/it/wireless for more info.

Key

- Full Coverage (with some exceptions)
- Partial Coverage (classrooms* and open areas)
- Outdoor Coverage (approximate)

* officially recognized classrooms scheduled through the Registrar’s Office

Visit umass.edu/it/wireless for more info.
