Architectural Technologist | BIM
& Tech Enthusiast

I am a second-generation aspiring architect and regional planner who enjoys connecting the dots, be it ideas from different disciplines, people from different areas of expertise, or applications from different industries. I have strong technical skills and an academic background in Architecture and design. My passion lies in solving design problems with tailored architectural and planning interventions and communicating complex ideas to non-technical stakeholders. I am able to jump across verticals to deliver high-performing construction solutions.
