**Ravi Ranjan**  
*Senior Research Fellow/Director, Genomics Resource Laboratory, University of Massachusetts Amherst*

Dr. Ravi Ranjan is the Director/Senior Research Fellow of the Genomics Resource Laboratory, UMass Amherst (www.umass.edu/ials/genomics). Dr. Ranjan supervises the core facility and provides Next-Generation high-throughput DNA Sequencing and genomics research services to internal (UMass), external academic and industry researchers. Dr. Ranjan graduated from University of Delhi, India. In 2009, Dr. Ranjan joined the University of Illinois at Chicago (UIC) as a postdoctoral research fellow, and he served as Research Assistant Professor at the Department of Medicine-UIC, where he performed independent research and managed sequencing projects.
