Note A. Some academic units have restricted the number of entering students, and many applicants are offered an alternate major. In the majority of cases, the alternate acceptance and enrollment figures do not represent acceptance or enrollment into that school or college, but acceptance or enrollment as an "Undeclared" Major.

Note B. Data are based on the Fall 2011 organizational structure of academic units and departments. Therefore, school or college totals may not be directly comparable to previous semesters and/or years due to the consolidation, reassignment, or suspension of selected academic programs.

* Race/Ethnicity is based on students' voluntary self-report.

† Includes Stockbridge students.

Note A. New federal race/ethnicity standards allow individuals to specify more than one race. In addition, some categories have been renamed, Asian and Pacific Islander categories were split, and "Two or More Races" was added. Hispanic or Latino of any race includes students who may have been previously counted in other groups. Therefore, data from fall 2010 forward are not comparable to previous years.

Note B. Percentages are based on the number of U.S. citizens or immigrants who report race/ethnicity.

Note C. Individual percentage entries may not sum to 100.0 because of rounding.

Note D. Includes Continuing and Professional Education.
