

Volunteers Wanted for a Research Study on Children's Toy Preference

Children are needed for a study examining how kids think about different toys. The study is being conducted by the Learning Lab at UMass, Amherst

Your child will:

- Play games related to toy choices
- Play a matching game

You will be asked to fill out paperwork about your family and your child's health and behavior

We are looking for children:

5 to 10 years of age

Participation requires one test session lasting ~45 minutes recorded over Zoom

Participants will receive a certificate and \$10
